AMENDMENT PROPOSAL

Please provide all of the following items in your amendment proposal.

**Code Sections/Tables/Figures Proposed for Revision:**

DBC-IFC 1013.6

**Proposal:**

Revise Denver amendment as follows:

**SECTION 1013**  
EXIT SIGNS

Section 1013.6 Externally illuminated exit signs is replaced with the following:

**1013.6 Graphics.** Exit signs shall have green lettering or pictograms on a contrasting field, or white lettering or pictograms on a green field. Pictograms shall comply with NFPA 101. Every sign required shall be of such size and design that it is readily visible and shall provide contrast with all decorations, interior finish, or other signs. Letters shall be not less than 6 inches (150 mm) high, with the principal strokes of letters not less than ¾ inch (19 mm) wide.

Section 1013.6.1 Graphics is renamed Graphics lettering.

Section 1013.6.2 Exit sign illumination and Section 1013.6.3 Power source are deleted

Section 1013.6, 1013.6.1, 1013.6.2, and 1013.6.3 are deleted.

**Supporting Information:**

Both the referenced amendment sections and the IFC base Code sections should be deleted. In the base Code, 1013.6 is only applicable to externally lit exit signs; these signs are not permitted by Amendment 1013.3. The amendment should be deleted because the graphic requirements are already contained within UL 924; there is no need to repeat them. The pictogram amendment language in the is section is in conflict with unamended IFC 1013.4 which manages an EXIT sign.
