SUDP Fees are based upon the approved domestic water meter size and the number of Single Family Residence Equivalent (SFRE) assigned as shown on the tables above.

Large-User Exception Formula: For water service taps 6” or larger sizes, or combined number of SFRE’s greater than or equal to 218, the number of SFREs for calculating the sewer connection charge shall be determined from the following formula:

\[
\text{SFREs} = \frac{\text{Flow} \times F + \text{BOD} \times B + \text{SS} \times S + \text{TKN} \times T}{0.3148 + 0.3209 + 0.0494}
\]

Where:
- Flow = Estimated flow, gpd (peak month)
- BOD = Estimated BOD, lbs / day (peak month)
- SS = Estimated SS, lbs / day (peak month)
- TKN = Estimated TKN, lbs / day (peak month)

Following are fractions of the District's capital investment used for the treatment of flow and loadings, effective January 1, 2021:

- Flow (F) = 0.5495
- BOD (B) = 0.1774
- SS (S) = 0.1793
- TKN (T) = 0.0938

Reactivation Charge:
- A Reactivation Charge of $130.00 per SFRE for each year beyond ten (10) years that a connection has been inactive as defined by the Metro District’s Rules and Regulations will be assessed.

Acronyms:
- SFR: Single-family residence
- SAFE Fees: Sanitary sewer services availability fee
- SFRE: Single-family residence equivalent
- METRO Fees: Metropolitan Wastewater Reclamation District Fee
