Conceptual Pedestrian Crossing Example: Project Features

- Expanded sidewalks and shorter/safer pedestrian crossings
- Maintains existing driveway access
- Prioritize curbside parking and loading
- Stop light for pedestrian crossing
- Center running bus lanes

Legend:
- XX' Dimension
- One-Way Street
- BRT Station Platform
- Curb Extension or Median
- Existing Driveway Access
- Bus-Only BRT Lane
- Loading Zone or Flex Space
- Parking Zone

Preliminary design concept. Subject to change.
