W 32nd Ave Construction Update:

You may have noticed that we started work on the 32nd Ave corridor.

**7/8 to 7/12 – W 32nd Ave & Julian St – Flagger and Parking Lane Closures**

We are working on the W 32nd Ave & Julian Street intersection this week (7/8) to update the curb ramps, this should have minimal traffic impacts and there will be a flagger on the street to direct traffic.

**7/15 to 7/19 – W 32nd Ave & Tennyson St – Flagger and Minor Lane Closures**

Next week (7/15) we will be at the W 32nd Ave & Tennyson St intersection to update the curb ramps and bulb outs, this should have minimal traffic impacts and there will be a flagger on the street to direct traffic.

**7/22 to 7/26 – W 32nd Ave & Perry St – Both Lanes Closed on W 32nd Ave west of Perry, 7 AM - 5 PM, WB traffic should open overnight. Please see attached detour info.**

The week of the 7/22 we will be working on the W 32nd Ave & Perry St intersection which will require a full closure of W 32nd Ave during work hours to build a bulb out, upgrade curb ramps and link the drainage to our stormwater system. During non-work hours westbound W 32nd Ave should be open. Please see other side for through traffic Detour information.

Coming in late July / early August rotomilling and repaving will occur on W 32nd Ave between Sheridan Blvd and Speer Blvd. The paving operations may include lane restrictions and detours, during daytime work hours only.

Following the repaving efforts in late August / early September, crews will install medians at Julian St and Irving St as well as traffic control devices and final pavement markings along the full corridor.

Please note all construction work is weather dependent and is subject to change. We will work to minimize disruption and impacts.
