Design and materials should reflect the urban-neighborhood, historic, mixed residential/industrial character of the surrounding community.

Provide gathering places that encourage people to spend time socializing and enjoying the surrounding environment.

Ensure the greenway is well lit and has good visibility during the day and night.

Visibility across and into the channel is important for neighborhood safety.

Desire for easily accessible space for opportunities like a community garden.

Desire to integrate public art, inspired by local community artists and reflective of the surrounding community/historical context and culture.
What We Heard

Design and materials should reflect the urban-neighborhood, historic, mixed residential/industrial character of the surrounding community.
COMMUNITY BUILDING | Plazas & Seating

EXEMPLARY

What We Heard
Use integrated seating and/or amphitheater seating to develop group spaces for public learning and gathering.

DESIGN ELEMENTS

COMMUNITY BUILDING | Public Art

What We Heard

Desire to integrate public art, inspired by local community artists and reflective of the surrounding community/historical context and culture.

- Denver’s Public Art Program strives to integrate art that complements and activates the project’s public spaces.
- 1% of the Capital Improvement Funds are devoted to public art on this project.
- Public Art Selection Committee will include members of the community.
