

39th Ave. Greenway

HIGHLIGHTS OF DESIGN PLANS

FACT SHEET

The City and County of Denver is constructing a new 12-acre recreational greenway along 39th Avenue between Franklin and Steele streets. The new open space will include community amenities such as multi-use trails and an outdoor amphitheater, while also providing needed conveyance of water for flood reduction, reducing flood risk to nearby homes and businesses.

MAP OF PROJECT WORK AREA

5,000 sq ft
for 1 community garden

17,500 sq ft
for 4 plaza areas

2
new
vehicular
bridges

2

pedestrian bridges
over the Greenway

86

pedestrian lights along
multi-use trail*
