West 35th Avenue Neighborhood Bikeway Feasibility Study

Existing Conditions

The proposed neighborhood bikeway would connect key destinations, bicycle routes leading to downtown, the West Highland and Highland neighborhoods, and Wheat Ridge. This is a key east-west route for people who walk and bike for both work and recreation.

Land Uses
- Mostly single family homes
- Pockets of commercial activity around Tejon and Tennyson Streets
- Several elementary schools, like Edison, Sanderval, and Bryant-Webster, are within the corridor

Four-way stop-controlled intersections may be good locations for traffic mini circles or other traffic-calming treatments.

Improving safety for all road users in crossing major arterials such as Federal Blvd. is a main priority of this project.

Bicycle/car reported crashes at W. 35th and:
- Irving St.
- Federal Blvd.
- Elliot St. (x2)
- Utica St.
- Tejon St.

Bicycle facilities are shown in yellow.

Pedestrian/car reported crashes at W. 35th and:
- Bryant St.
- Pecos St.
- Osage St.
- Navajo St.
