Please continue to stay involved in the project by attending one or both of the upcoming neighborhood meetings:

**Tuesday, April 4, 7 PM**
West Highland Neighborhood Association meeting
Highland Event Center, 2945 Julian Street

**Tuesday, April 18, 6 PM**
Highland United Neighbors, Inc. meeting
Potenza Lodge, 1900 38th Avenue

**About**
The project will improve this neighborhood street for people who bicycle, walk, and drive. Since the Neighborhood Bikeway Feasibility Study was completed in September 2015, the City has been addressing community feedback and developing final designs of the corridor bikeway elements.

**What are Neighborhood Bikeways?**
Neighborhood bikeways are streets designed to give priority to people who bicycle, improve safety for those who bicycle, walk, and drive, and discourage cut-through vehicular traffic.

**Schedule**
Following the open house and neighborhood meetings, the City will finalize designs by late spring 2017.

**Construction anticipated in August 2017.**
