48th Ave Sanitary - RTD

Overview

This project includes a sanitary sewer upgrade along the east rail line at the National Western Stock Show (NWSS) Complex and the National Western Center (NWC) RTD Station. A 21” sanitary sewer interceptor is to be constructed along the Northwest corner of the NWSS complex extending to Brighton Boulevard. This project is the first of three phases of master planned sanitary sewer line improvements.

Location

National Western Stock Show Complex
