UDFCD CIP: Bowles Ditch Separation

This project is a cost-shared project with the Urban Drainage and Flood Control District recommended in the May 2012 Marston Lake North Major Drainageway Plan located in the Marston Neighborhood in Southwest Denver. The purpose of the project is to eliminate storm water from areas south of the Bowles Lateral irrigation ditch owned by the Joseph W. Bowles Reservoir Company.

Benefits/Avoided Losses:
Eliminate storm runoff from entering the private irrigation ditch, improve water quality, reduce liability, and improve safety.
