Bring Swimming Back to our Parks!
CHALLENGES:

- Excessive goose poop is hazard to pets/birds
  - No bike lanes
  - Lack of resources to maintain existing structures combined with pressure to come up with something new
    - Access from the North through Golf Course
    - Areas w/o use become dangerous
    - Need extra light between Shadel & Cal Eldr (on 17th ave)
    - Keep car traffic speeds low
    - Protecting City Park Golf Course: it's part of City Park. After all, and it's threatened by the lake to Park Hill storm drain expanding.
    - Access from N'hood South of 17th - very challenging to cross 17th
      - Need Ped Refuge Island
    - Addressing stormwater in the Montclair Basin in a way that sensibly uses the open space in CPGC and addresses sediment a E.coli/total coliform @ Glendale discharge.
    - Longer pedestrian signal at Montview & Calend (at least on event days)
    - Goose poop
      - Better maintenance a cleanup of Par 4 parks
    - Playground is dangerous splinter wood, secret rocks where
      - Drug use is probable, no safety rails on high towers - mice, trash cans have no lids, trash blows out
    - Tree canopy missing over playground
    - CP Fan are too contrarian + block any attempts at creativity
      - CLEAN IT UP - 3x DAILY!!!
    - Too many geese (1000+) - Not ecologically balanced. Post causes global warming
    - How to respect historic Golf Course - Integrate 1770 plate.
**CHALLENGES:**

East High kids drive too fast through park.

**Speeding in general.**

- Having more music/family friendly activities.
- People dumping trash out of their cars.
- North/South connectivity thru the golf course (for peds, bikes, strollers).

We don't need a public golf course, need more park space.

Zoo - access N of Fernell Lake on busy days (not just Fridays). They need signage, an app - want to keep people from creating crowds. 1.00 left a park street.

**NEED** 4X WATER FOUNTAINS NEAR TENNIS COURT, MUSEUM, ZOO, PAVILIONS.

**NEED** BIKE/PED PATHS THAT CIRCUMNAVIGATE ENTIRE PARK (LOOPS).

**CONSIDER** "CAR-FREE/MINIMIZATION" ON WEEKENDS.

- ADA Accessible Trails - currently non-existent.
- Fully accessible/paved sidewalks around perimeter of park.
- Need more restrooms.
- Dirt/Paths for runners.
- Trim trees of dead branches - unsightly + dangerous.

Zone the park! Variances take normal process: City Council action - NOT PER director only!

"THE PARK EDGE ALONG THE ZOO IS BLIGHTED - BY THE ZOO! ZOO NEEDS TO BE A PARTNER, NOT AN ADVISORY."
