Hampden Avenue Corridor Study (2018)

- **Engagement:**
  - Hampden Advisory Team (Council office, CCD, CDOT, RTD)
  - 3 public meetings

- **Key themes:**
  - Comfortable and convenient crossings
  - Safety for all modes of travel
  - Complete sidewalk network
Corridor-wide recommendations

- Safety counter-measures
- Raised median
- Reduce pedestrian crossing distances
Improve Hampden from S. Dahlia St. to S. Parker Road (about 4 miles)
Project highlights

• New pavement driving surface, marking and striping
• Rebuild 107 curb ramps to comply with ADA standards
• Bridge improvements
• Signal equipment improvement
• Fence repairs at Goldsmith Gulch
• Raised median installed between S. Monaco Parkway and S. Tamarac Drive
• Improved pedestrian crossings
• Median cover - color patterned concrete
Raised median installed between S. Monaco Pkwy. and S. Tamarac Dr.
Closer look at raised median

Hampden Resurfacing Project
Benefits of raised median

- Leads to improved safety for pedestrians and motorists
- Refuge islands allow pedestrians to cross one direction of traffic at a time
- The FHWA and Transportation Research Board encourage raised medians to reduce car crashes, decrease delays for drivers and reduce vehicle speeds on roadways
- Reduced vehicle speeds help to decrease the rate and severity of crashes
Hampden Resurfacing Project

Hampden Resurfacing Project
Next steps for Hampden

- Elevate Denver Bond Project:
- Prioritize and scope remaining recommendations from Hampden Corridor Study (DPW & CDOT)
- Move Hampden Corridor Multimedia Improvements bond project forward - will include robust public outreach process
