

HOW TO RECYCLE CANNABIS PACKAGING

Keeping recyclable waste out of the landfill is one important way to protect the environment. Cannabis products come in many types of packaging, and it's not always clear if they can be recycled. Here's how to recycle cannabis packaging in Denver – keep in mind that other cities and states may have different recycling rules. Always make sure your packaging is clean before recycling!

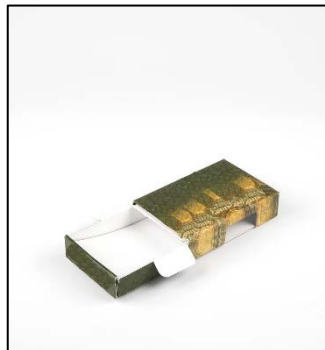

#5 Polypropylene and #2 HDPE Containers
Recycle

Mylar Bags
Reuse then Trash
