

Application for Building Permits, Sewer Use and Drainage Permits (SUDP), and Health Plan Review for Food/Beverage, Marijuana Kitchens, and Dispensaries

Because all work at these locations must have a health review and inspections, all applications for building and SUDP permits must be logged in for review and cannot be reviewed at the permit counter. Plan reviewers may request additional information as necessary to complete the review.

Where to submit this application:

- 1) Fill out the included forms and compile the items listed on the checklist on either page 2 or 3.
- 2) **Electronic Signatures.** Apply seals and a valid electronic signature to any document (plans, reports, surveys, letters) prepared by an architect, engineer, or surveyor. Commercial building plans must be prepared by licensed architects and engineers. Ensure all documents are unlocked for editing so they can be reviewed.
 - Unsigned, unstamped, or invalidated electronic signatures cannot be accepted.
 - Download a guide with screenshots on how to create a valid electronic signature at www.denvergov.org/buildingcode.
- 3) Save all files as PDFs and name them:
DocumentName_Address_Date.pdf (e.g., SitePlan_201WColfax_11-1-2017.pdf).
- 4) Submit all materials through e-permits at www.denvergov.org/epermits.
 - a. Register for an e-permits account, then go to Development Services > Apply for a Permit and select the “building log” option to apply for a building permit online.

After submission:

Once the project is assigned a Log number, use www.denvergov.org/epermits to check review status and pay fees.

Resubmittals can be made through e-permits at www.denvergov.org/epermits using the same instructions as above.

Email resubmittals to PlanReview@denvergov.org only if the original submission was made via email.

Web Resource:

Visit the “Restaurants” webpage at www.denvergov.org/DS to learn more about what work needs reviews and building permits.

Or, click here:

Add additional information (if necessary):											

FOOD HANDLING PROCEDURES

	Yes	No
Will food be held cold? (e.g., refrigeration, ice baths, etc.)	<input type="checkbox"/>	<input type="checkbox"/>
Will food be held hot? (e.g., steam tables)	<input type="checkbox"/>	<input type="checkbox"/>
Will fresh produce (including garnishes) be required for the menu?	<input type="checkbox"/>	<input type="checkbox"/>
Will food be cooled after cooking?	<input type="checkbox"/>	<input type="checkbox"/>
Will food be reheated after cooling?	<input type="checkbox"/>	<input type="checkbox"/>
Will food that is frozen need to be thawed?	<input type="checkbox"/>	<input type="checkbox"/>
Will proteins or vegetable foods be fully cooked from a raw state?	<input type="checkbox"/>	<input type="checkbox"/>
Will foods be prepared that will be sold to other establishments?	<input type="checkbox"/>	<input type="checkbox"/>
Will catering be conducted?	<input type="checkbox"/>	<input type="checkbox"/>
Will self-service foods (buffets, salad bars, etc.) be provided?	<input type="checkbox"/>	<input type="checkbox"/>
Will food items be sold in bulk to the public?	<input type="checkbox"/>	<input type="checkbox"/>
Will another facility, such as a commissary, be used to prepare food that is served here?	<input type="checkbox"/>	<input type="checkbox"/>

If applicable, how will you rapidly cool cooked food? Check all that apply:

<input type="checkbox"/> Refrigeration	<input type="checkbox"/> Shallow pans	<input type="checkbox"/> Other: _____
<input type="checkbox"/> Ice water bath	<input type="checkbox"/> Separating food into smaller portions	_____
<input type="checkbox"/> Adding ice as an ingredient		_____
<input type="checkbox"/> Rapid cooling equipment		_____

If applicable, how will you thaw frozen foods? Check all that apply:

- Refrigeration
- Under running water
- In a microwave
- As part of the cooking process
- Other: _____

If applicable, indicate which specialized processes* will take place in the facility. Check all that apply:

- Curing
- Acidification
- Live Molluscan shellfish
- Smoking
- Sprouting
- Curing
- Custom processing of animals
- Reduce oxygen packaging (includes vacuum packaging, sous vide, cook chill)

* For each specialized process, submit Standard Operating Procedures with this application.

MARIJUANA HANDLING PROCEDURES

All marijuana facilities must submit with this application a detailed product list of all products that can be consumed orally, including extracted oils, candies, beverages, supplements, tinctures, etc. Attached

	Yes	No
Will marijuana-infused products (MIPs) be manufactured, stored, or sold?	<input type="checkbox"/>	<input type="checkbox"/>
Will extractions be conducted onsite to produce infused edibles?	<input type="checkbox"/>	<input type="checkbox"/>
Will extracted oil be sold wholesale to other marijuana facilities?	<input type="checkbox"/>	<input type="checkbox"/>
Is trim from the facility (grinding, bagging, etc.) intended for use in any edible production?	<input type="checkbox"/>	<input type="checkbox"/>
Is commercial refrigeration** provided onsite?	<input type="checkbox"/>	<input type="checkbox"/>

Describe the tasks to occur in each extraction, processing, dishwashing, manufacturing, and packaging room:

** Commercial refrigeration is required onsite for any edible product needing time/temperature safety controls to limit the growth or formation of pathogenic microorganisms or toxins (“potentially hazardous”). If refrigeration is not provided, please submit either shelf-stability documentation from the Department of Public Health and Environment or a letter from the owner verifying that no potentially hazardous edibles will be provided onsite.

PLUMBING INFORMATION

Indicate whether the following plumbing fixtures/equipment will be directly connected to the sewer or indirectly drained (e.g., floor sink or air gap). Notations of "existing" will not be accepted.

ID # on plans	# of Fixtures	Fixture or Equipment	Direct or Indirect Drainage

Are any of the following fixtures located onsite and equipped with hot water?

	Yes	No	# of Fixtures
Hose Bibbs	<input type="checkbox"/>	<input type="checkbox"/>	_____
Shower	<input type="checkbox"/>	<input type="checkbox"/>	_____
Clothes Washer	<input type="checkbox"/>	<input type="checkbox"/>	_____

Is a garbage disposal provided? Yes No

If yes, please indicate the location(s):

Complete the following table for each food preparation sink provided in the facility.

Food Prep Sinks				
ID # on plans	Length of drainboard	Dimensions of sink compartments (L x W x D in inches)		

Warewashing Information

Complete the following table for each *manual* warewashing sink. Warewashing sinks must be large enough to accommodate the largest equipment or utensils used.

Manual Warewashing Sinks						
ID # on plans	Length of soiled drainboard	Dimensions of sink compartment (L x W x D in inches)			Length of clean drainboard	Pre-rinse sprayer? (Y/N)

Soiled and clean drainboards for primary warewashing sinks must be at least 24". Drainboards for bar sinks must be at least 18". If these dimensions cannot be met, please detail what alternate equipment/methods will be used in place of traditional drainboards and include specification sheets with this application:

Complete the following table for each *mechanical* dish machine.

Mechanical Warewashing								
ID # on plans	Make	Model #	Heat/chemical sanitizing?	Drainboard length	Pre-rinse? (Y/N)	Utensil soak sink dimensions (L x W x D in inches)		

Booster Heater

If a booster heater is provided, complete the following table.

Make	Model #	kW/BTU rating	Distance from machine (in feet)

Water Heaters

How many water heaters service this facility? _____

For facilities with multiple water heaters, please list which heaters serve which plumbing fixtures:

Use the tables below to indicate the type of water heaters and heating systems in use.

Standard Tank Type Heater			
Make	Model #	kW/BTU rating	Recovery rate (GPH) @ 100°F rise

Heat Reclaim System		
Make	Model #	kW/BTU rating

Instantaneous/Tankless Systems				
Make	Model #	BTU rating	Flow rate (GPM) @ 80°F or 100°F rise	Storage tank capacity (gallons), if applicable

Notes for Instantaneous Water Heaters

If a dishwashing machine is to be installed on an instantaneous water heater system, a storage tank is required. The storage tank size must be at least 20% of the gallons per hour (GPH) demand of the dishwashing machine(s), with a minimum tank size of 20 gallons. The storage tank must be installed in the hot water supply line located between the heater(s) and the hot water distribution line. It must have a recirculation line and aquastat (water thermostat) to ensure that the water in the tank remains at the appropriate temperature (120°F - 140°F). The line must connect between the tank and the cold-water supply line to the heater(s).

High-temperature, heat-sanitizing dishwashing machines must have a separate booster heater. An instantaneous unit cannot be used as a booster heater.

Electric units will only be approved as a dedicated supply to hand sinks.

Statement of Valuation (Building Permits)

Be Advised: Valuation shall be based on the total replacement cost to the owner (including labor, profit, overhead, materials, equipment and installation). The provided valuation will be checked against current construction costs provided by the International Code Council, Engineering News Records or other means available to determine if the valuation is in line with current market costs.

Asbestos Inspection Acknowledgement

When renovating a property, the customer making a building permit application must disclose whether the property owner knows if the project has been inspected for asbestos-containing building materials. For more information about asbestos requirements and inspections, please contact the Colorado Department of Public Health and Environment at 303-692-3100 or cdphe.asbestos@state.co.us, and review the Asbestos - Renovation and Demolition handout available at www.colorado.gov/cdphe/asbestos.

Please check all that apply.

I do not know if an asbestos inspection has been conducted on the building materials that will be disturbed by this project. Colorado Regulation No. 8, Part B, requires that prior to renovation a facility must be inspected by a Colorado certified Asbestos Building Inspector to determine if abatement is required. Failure to have the inspection may result in an asbestos spill which puts building occupants and workers at risk. It may also be a violation of Colorado’s asbestos regulation and may initiate an enforcement action pursuant to 25-7-508, C.R.S.

An asbestos inspection has been conducted on the building materials that will be disturbed by this project on or about:

DATE

An asbestos inspection has not been conducted on the building materials that will be disturbed by this project. Colorado Regulation No. 8, Part B, requires that prior to renovation a facility must be inspected by a Colorado certified Asbestos Building Inspector to determine if abatement is required. Failure to have the inspection may result in an asbestos spill which puts building occupants and workers at risk. It may also be a violation of Colorado’s asbestos regulation and may initiate an enforcement action pursuant to 25-7-508, C.R.S.
