MEDICAL SURGE UPDATE (Latest Update/Review 4/17):

Convention Center Tier 3 Alternate Care Site: Construction of first 250 beds. New opening date pushed to May 15, from 4/18. Contracting for wrap-around services is being broken into smaller time segments by state and Arts and Venues. Over 800 bed units are framed. Continuing topics of active inquiry: incident command structure and unity of command; provision of dietetically appropriate meals for chronic disease; role of area hospitals in site administration; possible admission of patients from sites other than hospitals.

State is exploring lease of facility for Tier 4 Alternate Care Site. Discussions unresolved regarding staffing and/or equipment supply. UCC has been informed of a Long-Term Care Facility in Denver interested in converting to a Tier 3 or Tier 4 ACS (would not receive direct funding but would rely on billing). Concerns about feasibility of this model were communicated to UCC on 4/11. Discussion with CDPHE opened 4/16 regarding use of ACS beds to support LTC outbreak control. Some discussions occurring at state level too, new taskforce between Governor’s office and SEOC.

4/16 meeting with PHEDOC Ancillary Care group identified concerns as: a) poor access to PPE – 4/17 deliveries to LTC adjusted upward to address; b) low staffing and fear of LTC staffing meltdown in a facility – H&H will explore feasibility of a rapid response taskforce from a health care organization. Not a clear need for more beds but for better cohorting to separate positive from negative cases. Adequate testing being provided by State Lab. If high demand limits state involvement, some assistance with Infection Prevention consultation may be helpful from hospitals.

DENVER & REGIONAL HOSPITAL CAPACITY & UTILIZATION (Latest Update/Review 4/17): (Note: both numerators and denominators subject to change due to non- or delayed-reporting).
(Healthcare & Hospital Branch in discussions for testing new method for tracking ICU beds and ventilators).

Availability of all “Acute Care” Hospital Beds of all types = at least 526 / 629 (up from 520 / 628).
Availability of ICU Beds Only = 102 / 334 (down from 108 / 334).
Availability of Ventilators = 177 / 311 (down from 202 / 310)
COVID-positive Inpatients = 154 (up from 147); Inpatients awaiting COVID test results = 79 (down from 158).
0/6 project staff shortages in coming week

REMAINING METRO REGION (EXCLUDING DENVER)
Availability of all “Acute Care” Hospital Beds of all types = at least 1094 / 3612 (down from 1140 / 3584).
Availability of ICU Beds Only =244 / 885 (down from 253 / 885).
Availability of Ventilators = 245 / 543 (up from 243 / 543).
2/24 project staff shortages in coming week.

**SUPPLY SHORTAGES AND RE-SUPPLY:**
For Denver hospitals: 3/6 project shortage of gowns in next 2 weeks; 2/6 project shortage of N95 masks and PAP (positive air pressure) respirators; 1/6 project shortage of masks, gloves, eye protection, and PAP respirators.
Large supplies of gowns arriving over next few weeks.

**PRIVATE CARE FACILITY OUTBREAKS OF COVID-19 (Latest Update/Review 4/17):**
19 outbreaks in "ancillary care facilities" (per state definition). (unchanged)
2 outbreaks at other senior community facilities (some with/without skilled nursing) that report at least one case among residents or staff. (unchanged)
2 outbreaks at hospital medical care facilities. (unchanged)

**TESTING:**
DHHA has acquired COVID-19 testing technology for inpatients, hospital, first-responders and essential city staff. Current daily testing ~500/day at 2 locations; awaiting test kits to increase testing to ~ 1000/day at additional locations. Several hospitals using commercial labs for testing, but only for symptomatic individuals with emphasis on workers and inpatients.
Late March, City received donation of 1500 "insta-test" kits for COVID-19 from Denver-based bio-tech company. (First in USA!). Denver has used to clear/isolate First-Responders.
