

2020 GOAL PROGRESS

OZONE
MODERATE NON-ATTAINMENT

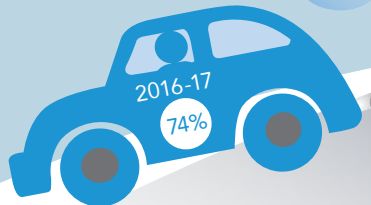

Air Quality
GOAL: Attain all National Ambient Air Quality Standards

Climate
GOAL: Reduce total community-wide CO2e emissions from Denver to below the level of emissions in 1990, (i.e., less than 11.8 million mtCO2e).

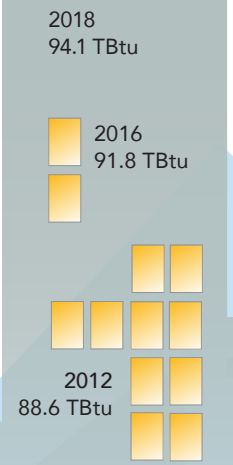

2018
11.5 MTCO2E

2017
12.7 MTCO2E

2012
11.8 MTCO2E

Workforce
GOAL: Ensure that less than <60% of workers living in transit deserts drive to work alone (2018 Data not available)

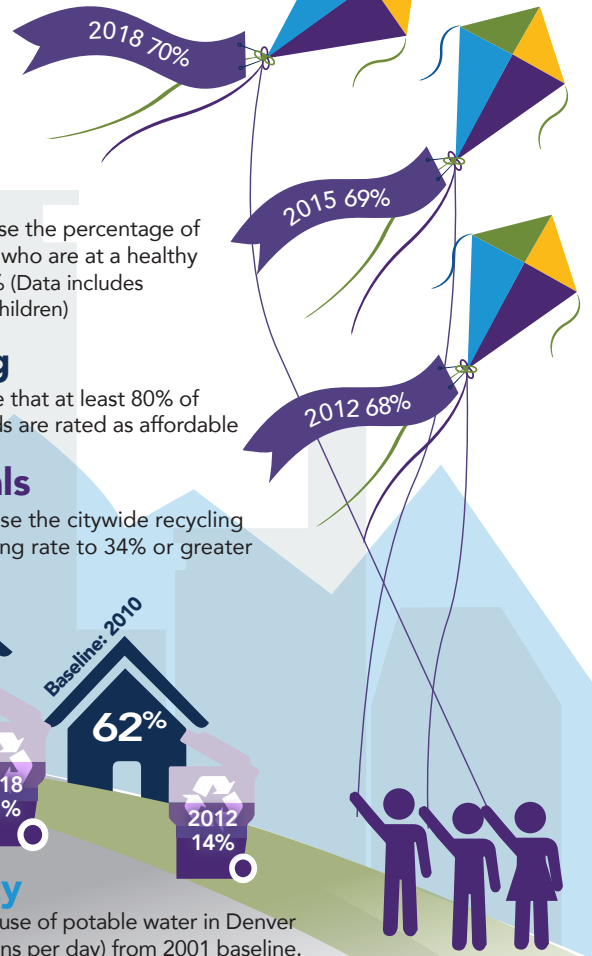

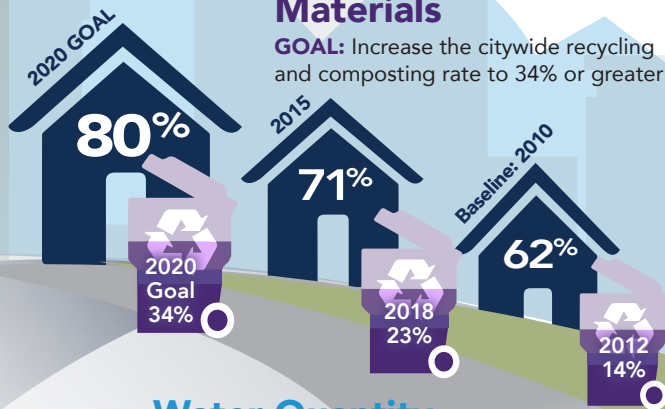

Energy
GOAL: Hold total energy use below 2012 levels while cutting fossil fuel use by 50%

Health
GOAL: Increase the percentage of Denver youth who are at a healthy weight to 74% (Data includes underweight children)

Housing
GOAL: Ensure that at least 80% of neighborhoods are rated as affordable

Materials
GOAL: Increase the citywide recycling and composting rate to 34% or greater

Mobility
GOAL: Reduce trips in single-occupant vehicles (SOV's) to no more than 60% of all commuting trips

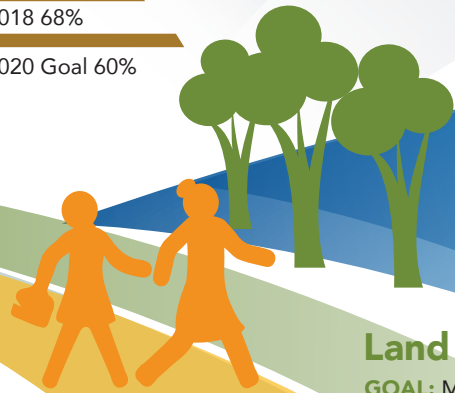

2012	68%
2015	73%
2018	68%
2020 Goal	60%

Water Quantity
GOAL: Reduce per capita use of potable water in Denver by 22% (down to 165 gallons per day) from 2001 baseline.
2001 gpcd: 211 2015 gpcd: 136 2018 gpcd: 141

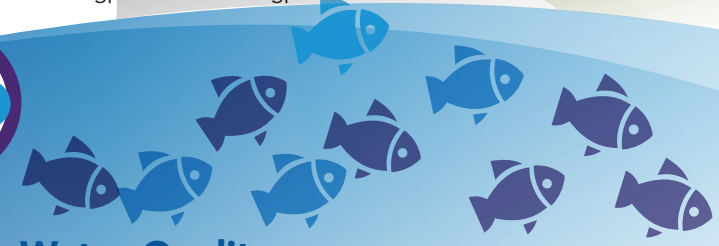

Food
GOAL: Grow or process at least 20% of Denver's food in Colorado (Data not available)

Proxy Goal: Reduce Denver's Food Insecurity Rate to 13.5%

Land Use
GOAL: Move Denver Walk Friendly rating from Gold (2015-2018) to Platinum

Water Quality
GOAL: Make Denver's river and creeks swimmable and fishable
