Measurement is the amount of desired physical change for an area. Captures areas where Blueprint recommends a change in Place Type and/or Neighborhood Context.

Measurement is the physical access to healthy foods, education, parks, shopping, entertainment and jobs. Captures areas that currently do not have access to key elements of a complete neighborhood.

Measurement is the socioeconomic, market pressure and pace of appreciation and transactions. Captures areas that are vulnerable to displacement.

Measurement is the diversity in income, education and housing stock. Captures areas that seek to become stronger and more resilient by diversifying.
