The vision of the Denver Moves: Downtown plan...

The Downtown Denver transportation system will more productively move people and goods to support a healthy, equitable and people-oriented city center.

Goals:

- **Goal 1**: Create mode-shift by building a transportation system that is connected through a variety of mode choices
- **Goal 2**: Make downtown streets safe
- **Goal 3**: Design streets to support healthy, people-oriented places
- **Goal 4**: Create a flexible and adaptable street network
- **Goal 5**: Make downtown accessible and easy to navigate
- **Goal 6**: Provide a transportation system that supports a thriving downtown economy
