COVID-19 Aces Arapahoe County Arena Opens for Vaccine Doses

Pepsi Center was selected to host a COVID-19 vaccination clinic in an effort to increase vaccine access. The clinic opened January 21 and is expected to run through February 21.

Mayor Michael B. Hancock announced that the clinic, which will be open Monday through Friday from 7 a.m. to 7 p.m., will be able to administer up to 500 doses per day. Vaccines will be available on a first-come, first-served basis.

"With 311 call volumes and website traffic soaring, we have had to expand our vaccination efforts to keep up with the demand," said Mayor Hancock. "We know that not everyone has access to a computer and the internet, so we have expanded to various locations across the city to make it easier for our residents to get vaccinated."

Additional information about the clinic is available online at denvergov.org. For other information on vaccine access, visit the Denver Department of Public Health & Environment (DDPHE) website at denvergov.org/publichealthvaccines.
