The EOC is tracking personal protective equipment (PPE) requests and is working to expedite sourcing and delivery, where possible. DPS providing food to children 18 years old and younger.
Health & Medical	Healthcare professionals across all healthcare facilities in Denver have been preparing for the effects of the coronavirus. There is also a nationwide stress on personal protective equipment (PPE).

CCD network activity is down but VPN access is increased not critical at this time but if continues in a linear trajectory we could hit capacity. CenturyLink and Comcast have eliminated bandwidth caps
Transportation	No major impacts reported. However, RTD and DEN have been included in several City workgroups under the COVID-19 Task Force to better monitor and report out on transportation impacts. RTD is monitoring service impacts and the possibility of a national curfew. RTD changes will impact DEN employees so will need to keep communication lines open.
Hazardous Materials	No known hazardous materials impact at this time.
Other	Supply chain impacts continue to be a source of concern for both medical supplies and certain high demand public commodities. Resource planning and requests should consider 4 months out given supply chain constraints. Requests need to be made immediately so they can get to the State. A shipment is arrived in CO late 3/16/2020, once it arrives Denver can make request to State. EOC has spent \$500,000 on masks which will arrive in 4-6 weeks. DOTI Solid Waste is in need of basic supplies to keep crews and trucks sanitary. They only have enough disinfectant spray, wipes, and hand sanitizer for the next 3 days.
