- 0/0 hospitals reporting anticipated shortages in Med/Surgical or ICU beds
- 0/0 hospitals reporting NOT having enough eye protection, gloves, and gowns
- 0/6 hospitals reporting NOT enough surgical/procedure masks to meet demand for the next 2 weeks
- 1/6 hospitals reporting NOT enough N-95 respirators to meet demand for the next 2 weeks (Denver Health – Small N95's)
- 1/6 hospitals reporting NOT enough PAPRS to meet demand for the next 2 weeks - Denver Health. Working with regional hospitals to see if they can buy additional PAPR supplies
- 0/6 hospitals reporting anticipated shortage of ventilator medications in the next two weeks – hospital that had been reporting an anticipated shortage (DH), received a shipment of preferred medications. Substitutions have stopped at this facility and status is back to green.
- All hospitals continuing to see a steady decrease in COVID-19 patients as well as ventilator utilization (this also helps with pharmaceutical needs).
- Denver Health is still in need of small N-95s. They are good on everything else, but size small masks are difficult to obtain, even through normal supply chains. HCC will be reaching out to regional hospitals to see if there are any smalls that are available for purchase, per the request of DH
- PPE: all hospitals reporting that they feel comfortable with the PPE they have on hand either at their individual facility and/or within their system. No concerns with city and county logistics reducing operations.
- EMS is seeing a leveling off of **out-of-hospital cardiac arrests**. These calls had increased over the last 6 weeks (roughly twice as is normal), but it has started to trend back down to a “normal” level.
- One Denver hospital is still experiencing a high intake of **cardiac arrests and strokes**.
- Denver Hospitals were notified of the extension of **City and County of Denver Curfew Order** via EMResource.
 - Denver hospitals discussed the initial curfew, and impacts to their facilities and patients, on the NCR Regional Hospital Call (6.1.20):
 - 911 System: 45 calls on Saturday and 23 on Sunday. Not all calls resulted in transport.
 - Discussions around law enforcement and current visitation policies at hospitals due to COVID-19 (how best to manage)

CITY AND COUNTY OF DENVER EOC SITUATION REPORT (EOC 200)

- Discussions on discharging patients once the curfew has gone into effect. Uber and Lyft are not in service and RTD not running downtown. Taxi service is not an option. Private EMS agencies are willing to transport if they are available.
- St. Joseph Hospital saw a small influx of green patients

Critical Care Adult Ventilator availability = 435 of 660 total are open (66% open, no change)

- No critical needs/concerns reported for standard bed or ICU bed availability.
- Minimum needs/concerns reported for fatality management and staffing – both being managed within hospital system(s).
- Shortages, but not critical shortages, reported for gowns, N-95s and PAPRs at a small percentage of hospitals (3%-6%). PAPER facilities continue to build N95 utilization to minimize PAPER needs.
- **Safer at Home and Hospitalizations:** As most of the NCR moves into week four (4) of Safer at Home, the region has yet to see a medical surge of COVID-19 patients. Although mobility across the NCR and the state has started to increase, a high proportion of the population maintained relatively high levels of social distancing during the initial weeks of Safer at Home, likely delaying a surge. It will be important to continue to monitor hospital capacity as there is still the *potential* for the region to see a surge in the coming month or two as communities continue the process of opening up and mobility increases more broadly.
- Hospitals are experiencing an increase in emergency department utilization.

OUTBREAKS OF COVID-19 IN RESIDENTIAL FACILITIES FOR OLDER ADULTS / PEOPLE WITH DISABILITIES (Latest Update/Review 6/2 PM):
