• **Governmental purpose.** The proposed use of the bond proceeds is for a governmental purpose.

• **10-Year Useful Life.** The proposed use of the bond proceeds must be a capital expense and have an expected useful life of at least 10 years.

• **Project Readiness.** Projects should be able to reasonably demonstrate they can be completed and or show that an independent phase can be completed within five years.

• **Critical System Need / Deferred Maintenance.** Capital projects that can demonstrate they are part of a: 1) mandated commitment (legal, contractual, regulatory), 2) critical capital rehabilitation or replacement that if not corrected by the project will result in immediate degradation to the structural integrity of a City asset, and or 3) improvement to infrastructure that addresses a critical operational need to enhance program and service delivery should be highly considered by the subcommittees.

• **Equity and Geographic Distribution.** Each subcommittee shall either utilize the attached neighborhood equity index (see handout) and or utilize other widely accepted statistical data, including the geographic location of each project when evaluating and deliberating on their recommended package of investments to help balance city-wide needs.
Additional Criteria Examples (pending applicability)

- Public Safety, Accessibility & Health
  - Ensures safe infrastructure for use by the public
  - Promotes health, wellness, and active lifestyles
  - Addresses space needs

- Investment Opportunities
  - Continuation of a previous commitment, investment, and or project
  - Leverages other funding sources (surety of funds must be clearly identified)
  - Driven by a window of opportunity
  - Provides additional revenue generation

- Infrastructure Preservation
  - Upgrades, rehabilitates, or replaces existing asset (to current code or standard)
  - Structural deficiency or asset beyond its useful life
  - Addresses ADA compliance
  - Provides for capital/operating cost reduction
Additional Criteria Examples (pending applicability)

- **Mobility**
  - Creates and supports multi-modal infrastructure supporting mobility options
  - Advances mode shift
  - Removes a major barrier

- **Community and Economic Development**
  - Promotes Business Development
  - Promotes neighborhood revitalization

- **Recreation and Cultural Opportunities**
  - Increase recreational and cultural opportunities

- **Sustainability**
  - Advances one or more of the Office of Sustainability's 2020 Goals, Executive Order 123 or related plans that help address sustainable principles/goals.
  - Reduces operating costs

- **Committee Specific or Others to Consider?**
  - ???
