4:10	<p>Closing (20 m)</p> <p><i>Purpose: Close meeting and set up success for path forward.</i></p>
4:30	Adjourn

Denver Climate Action Task Force

Meeting 7 Summary 03-26-2020

Key Discussion Points

- **Long-Term Outcomes:** Based on survey results, some additional tweaks are needed to the long-term outcomes. City staff will take a first stab at refining the outcomes and will then send to subgroups for additional editing. The hope is to have the outcomes finalized before the April 6th meeting. Much of this work will be done in between meetings.
- **Meetings In A Box – Round 1:** The Task Force broke into small groups to discuss the Meetings In A Box Round 1 summary. They were asked to discuss three questions: 1) What resonated with you? 2) What did you learn? 3) What do we need to keep in mind as the Task Force looks to solutions. Theme emerged around participants being excited and supportive of bold action to address climate change and there was a sense of hope amongst participants. Task Force members also picked up on concerns about equity (i.e. congestion pricing, residential housing, etc.). Finally, there were notes on ensuring recommendations incentivize behavior changes, address underserved communities first, and don't villainize one industry.
- **Solutions:** The majority of Meeting #7 was spent in small groups working on the Trello Boards for Transportation, Buildings, Electricity Supply, and Adaptation and Resiliency. Work groups were asked to go through the solutions, organize them into phases, and tag them with labels around equity, impact, and sustainable economy.

Next Steps

- **Stakeholder Advisory Groups:** All Stakeholder Advisory Groups have been completed. Summaries will be discussed at the April 9th meeting.
- **Meetings In A Box – Round 2:** All MIB2 should be completed prior to March 30th. All pictures, surveys, and data should be sent to Matt Gray at mgray@rockymountaininnovationlab.com by March 30th. MIB2 summary information will be discussed at the April 9th meeting.
- **Solutions Workgroups:** Each Solutions Workgroup asked for additional time to edit the Trello Boards. The facilitators will follow up with Zoom invites for each of these meetings, all to happen before the April 9th meeting.
- **Public Participation in Task Force Meetings:** The facilitators have found solution to how to allow the public to continue to participate in these meetings. These meetings can be livestreamed via You Tube or Facebook. They are working to see if this is a possibility for the April 9th meeting.
