**Section 907.5.2.3.3 Group R-2 is replaced as follows:**

**907.5.2.3.3 Visible notification appliances in Group R-2 occupancies.** Group R-2 sleeping and dwelling units shall be provided with visible notification activated by an integral in-room smoke alarm required by Section 907.2.11. Visible notification appliances shall also be provided which are activated by the building fire alarm and/or automatic sprinkler system. The minimum number of sleeping units per building to be provided with visible notification appliances shall be in accordance with Table 907.5.2.3.2. All accessible units required by Table 1107.6.1.1 of the International Building Code shall be provided with visible notification appliances as part of this requirement.

**Section 907.5.2.3.4 Visible notification appliances in R-3 and R-4 occupancies is added as follows:**

**907.5.2.3.4 Visible notification appliances in R-3 and R-4 occupancies.** Sleeping rooms shall be provided with visible notification activated by an integral in-room smoke alarm. Visible notification appliances shall also be provided which shall be activated by the building fire alarm and/or sprinkler system, where provided.

Exception: Buildings that do not contain more than two dwelling units.

Supporting Information (Required):

All proposals must include a written explanation and justification as to how they address physical, environmental, and/or customary characteristics that are specific to the City and County of Denver. The following questions must be answered for a proposal to be considered.

- Purpose: What does your proposal achieve?

This amendment deletes the requirement for mandated visual notification in dwelling units and returns the requirement to the base code minimums.
Reason: Why is your proposal necessary?

The adopted amendments require above the minimum requirements of the 2021 IFC and for no clear reason. Occupants with hearing disabilities could be residing anywhere in the building and not rooms specifically for built for accessibility provisions. Forcing compliance with the visual notification table unnecessarily forces owners to install visual notification in rooms that may never have a hearing impaired occupant. The base code requires that provisions be installed such that rooms can be upgraded in the future to install visual notification. The owner would be obligated to upgrade when a hearing impaired resident requests under other laws / codes.

Substantiation: Why is your proposal valid? (i.e. technical justification)

It meets the minimum requirements of the 2021 IFC. There is no technical justification for the amendment to remain in place.
