[DELETE ALL REMAINING TEXT IN APPENDIX]

Supporting Information (Required):

- Purpose: What does your proposal achieve?

By removing Appendix O, Denver Fire Department can update the submittal policies and guidelines without amending the International Fire Code. This document primarily directs submittal content and process and does not establish technical code parameters.

- Reason: Why is your proposal necessary?

Policies and guidelines are intended to be separate from the Code. The policies and guidelines can be modified to adjust to changing conditions without having to revise the Code or wait for the next Code cycle.

- Substantiation: Why is your proposal valid? (i.e. technical justification)

Updated policies and guidelines are the proper place for submittal requirements. Several NFPA documents already have plan submittal requirements and are codified through Amended Chapter 80, Referenced Standards.

Bibliography and Access to Materials (as needed when substantiating material is associated with the amendment proposal):

Other Regulations Proposed to be Affected

***For proposals to delete content from the 2019 Denver Green Code in conjunction with adding it to other mandatory Denver codes and/or regulations, only.**

Please identify which other mandatory codes or regulations are suggested to be updated (if any) to accept relocated content.

Referenced Standards:

List any new referenced standards that are proposed to be referenced in the code.
