**AMENDMENT PROPOSAL**

Please use a separate form for each proposal.

1) Code(s) associated with this proposal. Please use acronym:  

<table>
<thead>
<tr>
<th>Acronym</th>
<th>Code Name</th>
<th>Acronym</th>
<th>Code Name</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>(e.g., DBC-IBC, DBC-IEBC)</td>
<td>IRC</td>
<td>International Residential Code</td>
</tr>
<tr>
<td>IBC</td>
<td>International Building Code</td>
<td>IMC</td>
<td>International Mechanical Code</td>
</tr>
<tr>
<td>IEBC</td>
<td>International Existing Building Code</td>
<td>IPC</td>
<td>International Plumbing Code</td>
</tr>
</tbody>
</table>

2) Please check here if a separate graphic file is provided: ☐

3) Use this template to submit your proposal or attach a separate file, but please include all items requested below in your proposal. The only formatting needed is **BOLDING, STRIKETHROUGH AND UNDERLINING**. Please do not provide additional formatting such as tabs, columns, etc., as this will be done by CPD.

**Code Sections/Tables/Figures Proposed for Revision:**

- NEW:
  - Section 406.3 Water Consumption
  - Section 409.5 Water Consumption

**Proposal:**

**Section 406: Automatic Clothes Washers**

**Section 406.3 Water Consumption is added as follows**
Definitions:

**water factor (WF):**

a. *clothes washer (residential and commercial):* the quantity of water in gallons (litres) used to wash each cubic foot (cubic metre) of machine capacity.

b. *residential dishwasher:* the quantity of water use in gallons (litres) per full machine wash and rinse cycle.

### 406.3 Water Consumption

Clothes washers installed within dwelling units shall comply with the ENERGY STAR® Program Requirements for Clothes Washers or equivalent. Clothes washers installed in publicly accessible spaces such as (multifamily and hotel common areas, and coin- and card-operated clothes washers of any size used in laundromats, shall have a maximum WF of 4.0 gal/ft³ of drum capacity normal cycle (0.53 L/L of drum capacity normal cycle).

### Section 409 Dishwashing Machines

Section 409.5 Water consumption is added as follows

#### 409.5 Water consumption

Dishwashers installed within dwelling units shall comply with the ENERGY STAR® Program Requirements for Dishwashers.

Dishwashers installed within commercial units shall comply with the ENERGY STAR® Program Requirements for Dishwashers or equivalent, or use auto-chlorination.

### Supporting Information:

**Purpose:** The purpose of the proposed amendment is to encourage water efficiency in new development and redevelopment in Denver by instituting best management practices for indoor, outdoor, and onsite reuse practices. By reducing per capita water consumption, Denver can build water system resilience in the face of population growth and climate change.

**Reasons:** The Colorado River Basin is in the midst of an unprecedented drought and these conditions will only be exacerbated in the future by climate change and population growth. In the Front Range, water conservation is our most affordable and most reliable water supply option. Smart, integrated water and land use planning efforts today will help build water resource resiliency in Denver in the future.

**Substantiation & Works Cited:**

Encourage products that save water and energy. Many of these products offer lots of savings for the owners at little to no upfront price increase. This has been a part of the Denver Water System Development Pilot Program for several years and they have found that nearly all washer manufactures make washers that are compliant with theses standards.

### Referenced Standards:

**Clothes Washers Key Product Criteria | Products | ENERGY STAR**

**Note:** List any new referenced standards that are proposed to be referenced in the code.

### Impact:

Some of the proposed amendments listed above may result in modest increases in price for construction and design such as increased fixture/appliance costs, and increased costs of native, drought tolerant landscape design and installation. However, as noted above, these modest increases are far outweighed by the environmental and social benefits of water efficient new development.

**Note:** Discuss the impact of this proposal in this section AND indicate the impact of this amendment proposal for each of the following:

- The effect of the proposal on the cost of construction: ☐ Increase ☐ Reduce ☒ No Effect
- The effect of the proposal on the cost of design: ☐ Increase ☐ Reduce ☒ No Effect
• Is the proposal more or less restrictive than the I-codes: ☒ More  ☐ Less  ☐ Same

**Departmental Impact**: (To be filled out by CPD staff)

**Note**: CITY STAFF ONLY. Discuss the impact of this proposal in this section AND indicate the impact of this amendment proposal for each of the following:

- The effect of the proposal on the cost of review:  ☐ Increase  ☐ Reduce  ☐ No Effect
- The effect of the proposal on the cost of enforcement/inspection:  ☐ Increase  ☐ Reduce  ☐ No Effect
