**CHAPTER 24**
**FUEL GAS**
**SECTION 2445**
**UNVENTED ROOM HEATERS**

Sections G2445.1 through G2445.7.1 are replaced in their entirety as follows:
G2445.1 Prohibited. Unvented room heaters, and open-flame or radiant heaters shall not be installed or operated within dwelling units.

**Supporting Information (Required):**
All proposals must include a written explanation and justification as to how they address physical, environmental, and/or customary characteristics that are specific to the City and County of Denver. The following questions must be answered for a proposal to be considered.

- Purpose: What does your proposal achieve?

This proposal will align the Denver Building Code with the Denver Environmental and Public Health “Residential Housing Regulations” regarding this existing prohibition.

- Reason: Why is your proposal necessary?

This proposal will better communicate to the public when planning construction projects which devices are prohibited by the Denver Environmental and Public Health Department.

- Substantiation: Why is your proposal valid? (i.e. technical justification)
The current Denver Residential Housing Regulations expressly prohibit unvented gas-fired heaters and open flame and radiant heaters. This proposal will align the fuel-gas provisions of the IRC with this Denver regulation.
