8/17/2020
NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Carrie Dorr

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Matt Ferlic

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Nina Belk

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Denver 80203

8/18/2020
NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Jean Merrick

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Anne Close

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Mike Oconnor

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Jane Tannenbaum

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Amber Humbert

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Donald Schaefer

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Kimberly Smith

Denver 80227

8/19/2020
NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

James Perkins

Denver 80238

8/20/2020
NO to Denver’s Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Dale Vodehnal

Denver 80206

8/20/2020
NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems.

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools.

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods.

* **allow unlimited cars** per household.

* **remove buffer zones** between schools and community corrections facilities.

* **prohibit ability of neighbors to object to homeless shelters**; notification only.

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock.

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

NO to Denver’s Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Hedrick Jaurigue

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Michael Lockhart

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Brandon Lucero

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Shannon Sauro

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Stephanie Prince

Denver 80220

8/22/2020
NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Linda Tafoya

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Michael Simpson

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Gregory Sheehan

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Bailey Brooks

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Anne Aguirre

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Elissa Tucker

Denver 80123

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Elizabeth Manus

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Alyn Park

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Taylor Snyder

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Andrea Hernandez

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Becky Knipe

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Brett Crawford

NO to Denver’s Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

NO to Denver’s Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Randall Corbett

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

John Nesavich

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**, notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Kelly Burke

Denver 80203

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Patricia Loan

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Jennifer Swanson

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Alison Ortiz

Denver 80223

NO to Denver’s Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

9/21/2020
NO to Denver’s Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods,** with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters;** notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Sarah Hawkins

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Brittany Dietzler

NO to Denver’s Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Kevin Norton

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Corey Hesterman

Denver 80227

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Elena Bragg

Denver 80203

9/23/2020
NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Denver 80227

9/24/2020
NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Emily Wakim

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Karen Falk

NO to Denver’s Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Nicole Robertson

Denver 80203

9/26/2020
NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Victor Smith

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Kristen Condon

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Julie Forbes

Denver 80210

9/29/2020
NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Denver 80211

9/30/2020
NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Ann Scherzinger

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters; notification only**

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Megan Cox

NO to Denver’s Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems.

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools.

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods.

* **allow unlimited cars** per household.

* **remove buffer zones** between schools and community corrections facilities.

* **prohibit ability of neighbors to object to homeless shelters**; notification only.

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock.

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Casey Herbst

Denver 80220

10/16/2020
NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems.

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools.

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods.

* **allow unlimited cars** per household.

* **remove buffer zones** between schools and community corrections facilities.

* **prohibit ability of neighbors to object to homeless shelters**; notification only.

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock.

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

NO to Denver’s Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Cody Fox

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Mary Kennedy

* allow density in all single-family homes to increase a minimum of **150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow **new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* allow **up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Amy Steele

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Bobbie Ferrari

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Cindy Taylor

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Mary Ford

Denver 80206

11/11/2020
NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Jose Rodriguez

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Daniel Sanchez

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Richard Roman

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Lisa Gentry

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Thomas Carllon

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

David Tobias

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

NO to Denver’s Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Helen Nortnik

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods.

* **allow unlimited cars** per household.

* **remove buffer zones** between schools and community corrections facilities.

* **prohibit ability of neighbors to object to homeless shelters**; notification only.

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock.

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Betsy Snyder

Denver 80220

NO to Denver’s Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Isaiah Wilson

Denver 80219

1/28/2021
NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* allow density in all single-family homes to increase a minimum of 150% -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with expansion to 100 guests for 130 days, and no buffer from schools

* allow up to 3 homeless shelters within a 1 mile radius in single family residential neighborhoods

* allow unlimited cars per household

* remove buffer zones between schools and community corrections facilities

* prohibit ability of neighbors to object to homeless shelters; notification only

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Christian Castillo

NO to Denver's Group Living Zoning Code Amendment

The revised changes will:

* **allow density in all single-family homes to increase a minimum of 150%** -- from 2 to 5 unrelated adults plus unlimited minor children -- in any size home, during a time of COVID-19 crowding concerns resulting in increased trash, noise, parking, and infrastructure problems

* **allow new 1-10 person 24/7 homeless shelters in all neighborhoods**, with expansion to 100 guests for 130 days, and no buffer from schools

* **allow up to 3 homeless shelters within a 1 mile radius** in single family residential neighborhoods

* **allow unlimited cars** per household

* **remove buffer zones** between schools and community corrections facilities

* **prohibit ability of neighbors to object to homeless shelters**; notification only

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but over 20% of Denver is exempt.

We have serious concerns about the impact on, and using single-family neighborhoods for, this big experiment.

Sincerely,

Heather Smith

Please Pass Group Living Changes Without Delay

Denverites have been discussing updating group living rules for nearly three years, and the proposal in front of you is a compromise based on thousands of pieces of feedback.

Denver is in a long running affordable housing crisis. Co-ops don't just provide affordable housing, but a path to growing equity and homeownership. Voting against these changes means you think it should be illegal for people to take in their unrelated friends and neighbors who fall on hard times, this is currently banned under the code.

Residential care serves many populations in our community and streamlining these rules will help them serve people fleeing domestic violence and those with disabilities.

Please pass these changes without further watering down to create affordable housing, remove discrimination from our zoning code, and serve those in need in our community.
Undo the watering down of Group Living reform and pass it!

Denver is in the midst of a housing crisis that has put a strain on service providers, renters of all incomes, and vulnerable communities. This crisis has its roots in the use of the zoning code in the 20th Century to discriminate.

Conceding to prejudices and giving up on environmental and equity goals is not "compromise."

The zoning code should regulate safety, not be a tool for privileged groups to force discrimination in neighborhoods.

Please undo the LUTI changes and allow up to ten residents in large homes as well as ensuring residential care facilities can operate in Denver.
Undo the watering down of Group Living reform and pass it!

Denver is in the midst of a housing crisis that has put a strain on service providers, renters of all incomes, and vulnerable communities. This crisis has its roots in the use of the zoning code in the 20th Century to discriminate.

The zoning code should regulate safety, not be a tool for privileged groups to force discrimination in neighborhoods.

Please undo the LUTI changes and allow up to ten residents in large homes as well as ensuring residential care facilities can operate in Denver.

Let's reverse the historically racist policies of the past and move Denver forward.
Undo the watering down of Group Living reform and pass it!

As all members of City Council know well, we have a severe housing crisis in Denver that will take years to address. This crisis has its roots in explicit and deliberate racist housing policies implemented by Federal, State and Local governments starting in the 1930’s and continuing through at least the 1960’s. While current zoning policies are no longer explicitly racist, Denver remains strongly segregated and the cost of housing is out of reach for far too many Denverites, both of which evidence the ongoing inequities and racist impacts caused by our zoning policies.

Changing Denver's group living policy is one of several zoning policy changes needed to create housing equity in Denver. The originally proposed group living changes would add flexibility in how existing housing can be occupied so that more individuals can be housed within our existing housing stock. With thousands of evictions expected this winter as a result of job losses resulting from COVID 19 the group living changes originally proposed would provide opportunities for individuals to share housing to reduce costs and will reduce the number of people made homeless as a result of evictions. The proposed policies would also permit more social services to be provided in group living situations, including rehabilitation services in community corrections settings. Please remember that nearly all prisoners will be released eventually and that our communities are made safer when we provide services that allow former prisoners to receive services and gain skills needed to successfully re-enter society.

Conceding to prejudices and giving up on environmental and equity goals is not "compromise."
The zoning code, as currently written, is a tool privileged groups use to maintain and expand discrimination in our neighborhoods, particularly in higher income neighborhoods, which are the worst offenders.

In view of Denver's long term housing crisis, which has been made suddenly and dramatically worse by unemployment resulting from COVID-19, continuing with the proposed changes to the group living ordinance is the right thing to do.

Please undo the LUTI changes and allow up to ten residents in large homes as well as ensuring residential care facilities can operate in Denver.

Jorgina Saab
I support the upcoming group living amendments

Denver's zoning historically has been based in bias against marginalized people. We need to change that, and now we have an opportunity to do that.

I live in the West Washington Park neighborhood. The zoning changes done in my neighborhood by Washington Park at the last zoning change were written to create a white upper class enclave. The history of WWP was to provide housing for factory workers at Gates. We should honor that heritage. The proposed zoning changes in the BluePrint will move in that direction significantly. We should move now in that spirit to provide higher density housing that is inclusive of folks that need a hand economically or socially.

Please do not restrict residential care facilities to commercial corridors, including specifically community based corrections: they are supposed to be in the community to support restorative justice. Help that happen with the zoning regulations. Don't buy into classist fears.

Thanks,

john Ferguson

I moved to Denver 26 years ago. I work at Denver Public Library and my wife is a nurse. I now live in a small duplex half a block off Colfax with my wife and two kids - a place we could barely afford 7 years ago and now would be unattainable for our family. In both our personal and professional lives we've seen the impact of Denver's housing crisis. The refugee families who used to live in the apartment complex next door have been replaced by Air BNB guests. Friends and family moving father out of town because there's no place they can afford to live. And the devastating human cost of our city constantly pushing services for those who need them the most out of the way to build yet another expensive development.

I want people to be able to live together and share resources, whether that's people sharing rent or a group home where people share treatment and accountability. I want them to live next to me, because I love this city and I believe it can be a place for everyone, not just those with $600k mortgages.

Please undo the LUTI changes and allow up to ten residents in large homes as well as ensuring residential care facilities can operate in Denver.

Joe Szuszwalak
Support the Original Intent of the Group Living Code Change

Denver Council,

Please forgive the impersonal nature of this letter, as I am filling out a form that sends this to all of your inboxes- which will save me a lot of time. I have a 3 week old baby and barely have the time to write one letter, let alone 13! :)

While I understand the need to compromise in government, the current iteration of the Group Living Code Change misses the intent of the proposal. It has taken a perfectly good idea to remove unenforceable discriminatory language from our zoning code and morphed it into a "compromise" where we only have LESS discrimination instead of NONE. Keeping the term "unrelated adult" in the code is a capitulation discrimination and still unconstitutionally targets people based on their familial status. It would be analogous to the Federal Government "compromising" on gay marriage by only allowing a set number to happen...

I truly believe that CPD, LUTI and City Council as a whole have the imagination and will to find a way to compromise on the nuts and bolts of this code change with out surrendering the original intent of removing outdated sentiments from our code.

Please put me on record in support of everything in the original Group Living Code Change Proposal.
Thank you, and have a great weekend!

-Jason Hornyak

Undo the watering down of Group Living reform and pass it!

Jolon, I am very discouraged in the outcome. I support the zoning changed as originally written and have sent several letters to that effect. To hear that none of those count is in a word, infuriating. Please, we must all do better and we do not get to pat ourselves on the back for doing the minimum and maintaining segregated communities.

Julia Wcislo
Vote “no” on group living

Dear City Council Members:

Please vote “no” on any of the group living proposals. The unfortunate hype from urbanist race-baiters sounds compelling, but none of it will improve housing affordability. Thank you,

Tim
Hello,

As a woman of color in my late 20s, I want to express my thoughts around the amendments to the Group Living Code, and more specifically the proposed Household Regulations. I lived with six roommates in an intentional community in City Park West for over a year. It was a group of young professionals, graduate students, nonprofit directors, artists, educators, storytellers and activists. The seven of us all came together to live under one roof to create positive social change in our community, and we were able to save money with affordable rent. We held regular house meetings, shared a chore list, grew a community garden, and hosted public events like panel discussions and film screenings on refugee issues and political advocacy.

It still amazes me that people with such diverse interests could not only coexist under one roof, but thrive and collaborate. Our house was like an organism, a space where each of us had a role and function to play, and we were stronger together than separate. It was such a privilege and opportunity to be able to learn from and collaborate with each other.

Although I no longer live in this house, these housemates were my chosen family and have become some of my best friends in Denver - the foundation of my community here. It is shocking and disappointing to know that the way we were living is currently illegal, and it is also exciting and hopeful to know that future groups of individuals wanting to make our city better through living in
community or cooperatives may be permitted to do so depending on the outcome of the proposed Group Living Code amendments.

I recently bought a home in Athmar Park and experienced first hand the lack of housing affordability and gentrification that is sweeping through our city. I genuinely believe that amending the Group Living Code to be more sustainable, equitable, and anti-racist can provide solutions to the housing crisis, especially during an economic recession. I urge you to please undo and reconsider the LUTI changes and instead amend the zoning code to regulate safety by allowing up to ten residents in large homes, as well as ensuring residential care facilities can operate in Denver.

Thank you for your efforts, consideration, and service to our city!

Lauren Howe
Undo the watering down of Group Living reform and pass it!

My name is Lindsey and I'm a person with a Master's degree. Recently, I was working three jobs and barely making ends meet. My landlord decided to sell the condo we were living in and we started looking for housing in district 5. Since we had three unrelated people in our home, the landlord did not allow me to move in. Please, this needs to change for the sake of housing our community members.

Denver is in the midst of a housing crisis that has put a strain on service providers, renters of all incomes, and vulnerable communities. This crisis has its roots in the use of the zoning code in the 20th Century to discriminate.

Conceding to prejudices and giving up on environmental and equity goals is not "compromise." The zoning code should regulate safety, not be a tool for privileged groups to force discrimination in neighborhoods.

Please undo the LUTI changes and allow up to ten residents in large homes as well as ensuring residential care facilities can operate in Denver.

Lindsey Earl
Don't allow watered-down group living reform

Denver is in the midst of a housing crisis that has put a strain on service providers, renters of all incomes, and vulnerable communities. This crisis has its roots in the use of the zoning code in the 20th Century to discriminate against those of low income and people of color.

I will be honest: As a residential property owner myself, my initial response is sometimes to fear these types of changes. However, I care about equity and quality living spaces for all more than property values which, frankly, are outrageous and make it increasingly difficult for folks to afford decent housing in Denver. Allowing more folks from different households to cohabitate goes a long way toward remediating this problem.

The zoning code should regulate safety, not be a tool for privileged groups to force discrimination in neighborhoods. I am concerned that many of the objections being raised were already accounted for in the initial proposal, e.g., requiring a certain number of parking spaces and limiting the number of people per home based on square footage. I fear that the objections are simply examples of NIMBY-ism and that there is nothing the City can really do to make these folks happy--other than to nix the proposal altogether. Giving up on environmental and equity goals is not "compromise."

I urge you to look past the naysayers at the benefits of the group living proposal as initially drafted. Please undo the LUTI changes and allow up to ten residents in large homes, as well as ensuring that residential care facilities can operate in Denver. Thank you for considering my comments.
Catherine Shea
Please, undo the watering down of Group Living reform and pass it!

I understand there has been pressure from a small number of homeowners who have complaints about the group living changes. While we do have a duty to listen to those complaints, we also have a duty to govern in the best interests of ALL people in the city, not just the loudest and most privileged. We must differentiate petty complaints from evidence of real harm to people and communities. A neighbor who doesn't "like" the idea of 5 people sharing a house is a petty complaint, no real harm is done to that person. A Denver resident who can no longer afford housing because restrictive housing polices have priced them out has had real harm done to them. You're much more likely to get letters from the former, but your responsibility as elected officials is to the real harm done toward persons in the latter situation.

Denver is in the midst of a housing crisis that has put a strain on service providers, renters of all incomes, and vulnerable communities. This crisis has its roots in the use of the zoning code in the 20th Century to discriminate.

Conceding to prejudices and giving up on environmental and equity goals is not "compromise."

Please undo the LUTI changes and allow up to ten residents in large homes as well as ensuring residential care facilities can operate in Denver.
Mat Trostle
Hello City Council,

I live in District 10, Congress Park. I am concerned about the language in the Group Living Proposal that was passed out of the LUTI Committee.

Denver is in the midst of a housing crisis that has put a strain on service providers, renters of all incomes, and vulnerable communities. This crisis has its roots in the use of the zoning code in the 20th Century to discriminate.

Conceding to prejudices and giving up on environmental and equity goals is not "compromise."

The zoning code should regulate safety, not be a tool for privileged groups to force discrimination in neighborhoods.

Please undo the LUTI changes and allow up to ten residents in large homes as well as ensuring residential care facilities can operate in Denver.

Regards,

Bryan Wilson
Bryan Wilson
Undo the watering down of Group Living reform and pass it!

I live in a single family zoned neighborhood near DU that doesn't allow for multiple units or even ADU's. I am surrounded by construction of new houses whose size could easily house multiple families that are being bought by childless wealthy retired couples. I hear the pounding of hammers of two new ones as I send this letter.

This single family home building boom is occurring as Denver is in the midst of a housing crisis that has put a strain on service providers, renters of all incomes, and vulnerable communities. This crisis has its roots in the use of the zoning code in the 20th Century to discriminate.

Conceding to prejudices and giving up on environmental and equity goals is not "compromise."

The zoning code should regulate safety, not be a tool for privileged groups to force discrimination in neighborhoods.

Please undo the LUTI changes and allow up to ten residents in large homes as well as ensuring residential care facilities can operate in Denver.

Denver is in the midst of a housing crisis that has put a strain on service providers, renters of all incomes, and vulnerable communities. This crisis has its roots in the use of the zoning code in the 20th Century to discriminate. While we can't go back and fix that issue, we can take the needed steps to fix the results.

Conceding to prejudices and giving up on environmental and equity goals is not "compromise."

The zoning code should regulate safety, not be a tool for the privileged to force discrimination in neighborhoods.

Please undo the LUTI changes and allow up to ten residents in large homes as well as ensuring residential care facilities can operate in Denver.
Please Pass Group Living Changes Without Delay

Denverites have been discussing updating group living rules for nearly three years, and the proposal in front of you is a compromise based on thousands of pieces of feedback.

Denver is in a long running affordable housing crisis. Co-ops don't just provide affordable housing, but a path to growing equity and homeownership. Voting against these changes means you think it should be illegal for people to take in their unrelated friends and neighbors who fall on hard times, this is currently banned under the code.

Residential care serves many populations in our community and streamlining these rules will help them serve people fleeing domestic violence and those with disabilities.

Personally, I live in a two-household single family home with my mothers. I'm very lucky to have the opportunity for intergenerational living that does not run afoul of zoning codes, but not everyone has that privilege. When I was younger I lived in community houses for many years. These homes were far healthier, more nurturing, and more economically and ecologically sustainably than when I lived alone. From a purely economic perspective, single-family zoning makes it impossible for many people to have a yard or garden, have a full kitchen, or have access to a car. The space and resource sharing that comes with community living can dramatically improve quality of life for low-income folks.
Please pass these changes without further watering down to create affordable housing, remove discrimination from our zoning code, and serve those in need in our community.

Housing was unaffordable for far too many before a global pandemic. Once eviction moratoriums end, scores more will become homeless and experience having their belongings destroyed by DPD and being forced to move from street to street as the city continues its brutalization of the unhoused.

The group housing changes should be passed unanimously, and I will do my best to ensure that anyone who cannot support a change which helps Denverites is no longer a city council person after the next election.

Sincerely,

Nick Storter

Please support changes to group living code

Please support the upcoming rule change to allow up to 8 unrelated adults to live in one household. Group living arrangements have allowed me to live affordably and build up my savings throughout my graduate education and postdoctoral stints. I can tell you that most other science workers (students and postdocs, the backbone of our scientific workforce) do the same.

It was only because I moved in with my girlfriend that our landlord was willing to count us as one, so we could split a 3-bedroom house. But it's ridiculous we have to twist our 'family' arrangements to suit these absurd laws. In fact I'd never lived in a city until coming to Denver that outlaws the most common non-family living arrangements.

Please update the rule ASAP to allow people to live affordably close to where they work!

Brian Ross
Please Pass Group Living Changes Without Delay

Hello -

I have recently purchased a home in Denver, after years of renting in apartments and a duplex. It was a nerve-wracking process even for someone as fortunate as I am, to have a good job and to split expenses with a similarly employed partner.

We need to make housing more affordable and accessible for everyone in Denver. The rate of building has not kept pace with the amount of people moving. Denver is NOT full, we just need new zoning.

I am in full support of measures that bring density and affordable housing in every neighborhood, including my own (Berkeley, and soon to be West Highlands). That includes group living. It is the humane and just path forward, and it's only the beginning.

Please pass these changes without delay or separation to create affordable housing, remove discrimination from our zoning code, and serve those in need in our community.

Support Group Living

Please pass the group living amendment unchanged or with minimal changes.

The affordable housing crisis is the biggest long-term problem in town. Having a couple of room mates makes it possible for people from all walks of life afford to live here.

The fears around the residential care piece seem overblown. I heard there are only 33 halfway houses in all of Colorado. The type of economic segregation we're seeing where most inner neighborhoods are super out of reach for almost everyone is really bad.

Thank you.

Max Nardo

Denver City Councilors,

For too long, Denver has needed regulatory relief to address the city's affordability crisis. The proposed Group Living ordinance is a step in the right direction, particularly for those who need the most help getting back on their feet. Denver is only as strong as its weakest link; strengthening our local society's links through affordable, accessible housing will benefit the entire city.

Thank you for your service and representation. ~ John

Crystal Middlestadt
Group Living Changes Are Destructive Vote No

While an admirable set of goals, there is nothing in this change that will accomplish those ends, only make it worse.

Tried in SF and Seattle, and housing costs increased. Homelessness there keeps increasing despite these changes.

Felons in my neighborhood? NFW. Period. A plan for disaster all the way around. Is this all because of your political stand about the Feds, detention and ICE? Ridiculous that you would put the burden on us for some half-baked political moment that was not thought through. Put them in the neighborhoods and I predict people will start arming themselves.

Now the economics, the city is what, 270 million short? When you need to pay for things associated with this, who is going to pay for it? Definitely not me or my family.

The only group that wins are real estate speculators. Let's see, I rent a house to a couple for 1500. Now 9 people move in, all paying 800 per month. That is a cool 7200 per month, quite an increase. Affordable? Not really and just think what it does to trash and the sewer system.
Didn't you address this with the 30,000+ apartments that have gone up in Denver in the last 3 years? Oh yeah, rents have already gone down 10% and another 9% down is predicted by February.

Now to the worst part, the planning department orchestrated this and deliberately, I say deliberately left out critical input. They packed the group with people that were for this from the start. Democracy at work? Can you say USSR?

I could like 9 more reasons to vote no, yet I am sure that was enough to tell you where we stand.

Niles Walker
Please! Pass Group Living Changes Without Delay

Denverites have been discussing updating group living rules for nearly three years, and the proposal in front of you is a compromise based on thousands of pieces of feedback.

I believe that Denver is in a long running affordable housing crisis. Co-ops don't just provide affordable housing, but a path to growing equity and homeownership. Please pass these changes without delay or separation to create affordable housing, remove discrimination from our zoning code, and serve those in need in our community.
Please Pass Group Living Changes ASAP

I lived the last two years in a group living situation in St. Paul, MN, before returning to Denver. Living in a duplex with eight other people (four in my unit, five in the other) made housing affordable. Without the option to live with multiple friends, housing would have been far more expensive.

The Twin Cities is widely considered to be an affordable, live-able city, largely because of its housing policy. Voting for the group living changes is a first step toward building a more equitable Denver. The racist and classist restrictions on Denver’s housing market make it difficult for many kinds of people to find affordable housing. Even with a middle-class background, I am having a hard time finding housing that would not make me cost-burdened.

Do not let folks in single-family residential neighborhoods convince you that the group living restrictions would harm their neighborhood. Many families in South Park Hill, where I currently live with my parents, claim to be "liberal," but when it comes to actually protecting Black lives or poor lives, they have a harder time showing up. Diversifying the housing options around the city would also integrate neighborhoods and force higher-income neighbors to actually live alongside and take care of their low-income neighbors. I can say from experience in the Twin Cities that mixed housing options improve a single-family residential neighborhood.

Denver is in a long running affordable housing crisis. Co-ops don't just provide affordable housing, but a path to growing equity and homeownership. In a
time when housing is healthcare, people need to be able to take in their unrelated friends and neighbors who fall on hard times.

Please pass these changes without delay or separation. Vote to create affordable housing, remove discrimination from our zoning code, and serve those in need in our community.

Please Pass Group Living Changes

I am writing in support of the group living changes. The group living regulations are extremely outdated and not made for today's Denver.

Living in a group situation is often the only affordable way to live in this city. Today those that are living in a group situations have the additional stress of being evicted on those grounds.

Also I have been concerned with the rhetoric being used throughout the community to oppose these changes. It is classist at the least and xenophobic and racist at it's worst. That sort of attitude is not what Denver is all about!

Thanks for reading!

Your friend,

Dylan Souza

Please Pass Group Living Changes Without Delay

Hi Councilmembers,

I know there is a lot going on lately. However, I did want to reach out about the Group Living here in Denver. Please consider this proposal! Group living will create an environment for financial stability and community here in Denver.

Denver is in a long running affordable housing crisis. Co-ops don’t just provide affordable housing, but a path to growing equity and homeownership. Voting against these changes means you think it should be illegal for people to take in their unrelated friends and neighbors who fall on hard times, this is currently banned under the code.

Residential care serves many populations in our community and streamlining these rules will help them serve people fleeing domestic violence and those with disabilities.

Please pass these changes without delay or separation to create affordable housing, remove discrimination from our zoning code, and serve those in need in our community.

Thank you!

Please Pass Group Living Changes Without Delay

During the pandemic, I and my friends in our late 20's and 30's have experienced layoffs, reduced hours, and uncertain futures.

By moving in to a 4 bedroom rental house with roommates we've been able to save money - we saw it as a fiscally responsible decision.

We were shocked to discover that our living situation isn't actually legal in Denver. At a time when housing shortages make the city unaffordability expensive for workers, it's unacceptable that people moving in with roommates isn't legal. If street parking or noise or other concerns are the problem, restrict the parking or the noise, not the ability to live together.
Please Pass Group Living Changes Without Delay

Denverites have been discussing updating group living rules for nearly three years, and the proposal in front of you is a compromise based on thousands of pieces of feedback.

As the saying goes, "perfect is the enemy of good." This proposal is good and takes steps to address a problem that isn't a hypothetical. It's a real, ongoing problem that Denver faces, right now.

Denver is in a long-running affordable housing crisis. Co-ops don't just provide affordable housing, but a path to growing equity and homeownership. Voting against these changes means you think it should be illegal for people to take in their unrelated friends and neighbors who fall on hard times, this is currently banned under the code.

Residential care serves many populations in our community and streamlining these rules will help them serve people fleeing domestic violence and those with disabilities.

Robert Queen
Hello,

I am writing you in support of Denver's group living changes because I support affordable housing and in general believe in our rights to do what we want with our homes.

We are facing unprecedented times, I personally have family members that have lost their jobs, one of whom is going to run out of cash at the end of September and could face eviction. It is imperative that we move quickly to ensure that the up to 100,000 people facing evictions in our city have somewhere to live, which absolutely includes group housing.

I have been proud to call Denver my home and want to see us to continue to make practical progress. Other cities in our peer group, like Seattle, have not faced issues in their neighborhoods due to group living.

Thank you for your time and consideration.
Paul Franco

Jessica Wilkinson
Hello council members

I am 91 years old and lived in Denver 70 years.

I’d like you to pass the group living changes. I have earned the right to decide who I want to invite into our large house- to live with my husband and myself.

The city should not have the right to determine who or how many people We can share our house with.

We have paid city taxes for 70 years.

We enjoy people and they appreciate the opportunity.

These zoning laws are outdated.

We have been discussing updating group living rules for nearly three years, and the proposal in front of you is a compromise based on thousands of pieces of feedback.

My Group Living Story

I lived most my adult life with roommates. Let me tell you, we are the artists and musicians that make Denver feel Denver-ish. We are the sound technicians running your church services, the jr managers at the local pool, and the interns just out of college. We are the waiters cleaning up after the restaurant closes then going to the bar next door for drinks. If we are welcome in Denver, the jr manager will, in ten years’ time, run the aquatics division of the Rec Center; the sound technician will teach you how to play bass in her music school, the intern will become the general contractor who remodels your home, and the waitress, after spending twenty years in Denver, will open a distinctly Denver vibe cafe.

If these individuals who split $2500 rent five ways, are treated like weeds in a garden, then Denver’s future will miss out on their reinvestment into the community when they mature in their careers. Instead of developing and retaining local talent, they will move somewhere cheaper where they can afford rent on their own; this city’s business owners will be out of town chain businesses, leaving the 95% minimum wage workers they employ, because home grown talent was uprooted like a weed and not allowed to grow.

It is not because you give affordable housing choices that you get poor people, it’s because you run poor people out of town instead of letting us grow in this city that creates a revolving door of poor people in and poor people out before we ever start to make good money. That drains the future Denver of its flavor and it’s small business base.
Additionally, now that I personally have a family, the reality is that I spend a lot less “small” money than I did as a single person. When my social life was not in my house, I met friends at restaurants and the gym and movies and concerts. I was out spending money all the time. Now I save money for a house and my child’s future.

The young and the solitary are vital for the work and economic impact they contribute today, but we need to not just scrape by, but instead actually feel a little economic elbow room, so that after a few years, we make a little more, and we dream a little more, otherwise, we leave, before we could make our best impact.

Please Pass Group Living Changes Without Delay  

Dear councilmen and women  

It is extremely important to pass the group living changes for zoning. Well it is presently discriminates against poor people, people of color, people with disabilities, anyone who could not afford the high cost of housing. Plus it discriminates against someone like me who is a single female with a six bedroom three bathroom house. Yet I’m only allowed to have one Housemate.  

People who object to this are mainly the wealthy and upper middle class Cara mainly about themselves and don’t care about others who also need housing.  

Please do the right thing and pass this.  

Thank you elizabeth j Knox  

Denver city resident. I was born at Denver as well as my father we are long term Denverites. My Father Was Wayne , Knox Colorado’s longest state representative.

Devon Horntvedt
Please Do Not Pass Group Living Changes Without Delay

I live in Chaffee Park. A home at the end of my block houses many people who are not related. It is a rental house. They race up and down the alley at all times of the day and night. They park on the lawn as well as in front of the house. They have loud parties. I am opposed to more people living in one house. The only person profiting is the home owner by charging them each rent to pay. I feel that vulnerable people will get stuck in unsafe living conditions with having a house with more people than it can handle. Kind of like a slum lord. We just passed the ADU zoning. How much do we have to give up. Also with COVID-19 it is extremely dangerous to have so many living in close spaces. It is dangerous for our community as well because they are renters and don’t respect the neighborhood.

Many say they bought their homes and cannot afford the payments now. Same excuse they used for ADU. It is not the community’s responsibility to supplement someone who purchased a home they cannot afford. RNO participants do not speak for our community.

Denverites have been discussing updating group living rules for nearly three years, and the proposal in front of you is a compromise based on thousands of pieces of feedback.

Denver is in a long running affordable housing crisis. Co-ops don't just provide affordable housing, but a path to growing equity and homeownership. Voting against these changes means you think it should be illegal for people to take in their unrelated friends and neighbors who fall on hard times, this is currently banned under the code.

Residential care serves many populations in our community and streamlining these rules will help them serve people fleeing domestic violence and those with disabilities.

Please pass these changes without delay or separation to create affordable housing, remove discrimination from our zoning code, and serve those in need in our community.

Denverites have been discussing updating group living rules for nearly three years, and the proposal in front of you is a compromise based on thousands of pieces of feedback.

Denver is in a long running affordable housing crisis. Co-ops don't just provide affordable housing, but a path to growing equity and homeownership.

When I first moved out on my own, there was no way I could have afforded to live on my own. With my entry level income, the only way to afford to live in Denver was to live with roommates. That is the norm for many young people. Because I was able to live with roommates, I was also about to save some money over time and now am a homeowner in Denver.

Especially in the wake of the covid pandemic, it should not be illegal for people to take in their unrelated friends and neighbors who fall on hard times, which is currently banned under the code.

Residential care serves many populations in our community and streamlining these rules will help them serve people fleeing domestic violence and those with disabilities.
Please pass these changes without further watering down to create affordable housing, remove discrimination from our zoning code, and serve those in need in our community.

Please Pass Group Living Changes Without Delay

Hi Councilmember,

There is a great opportunity in front of you to increase affordable housing in Denver! Denverites have been discussing updating group living rules for nearly three years, and the proposal in front of you is a compromise based on thousands of pieces of feedback.

Denver is in a long running affordable housing crisis. Co-ops don't just provide affordable housing, but a path to growing equity and homeownership. Voting against these changes means you think it should be illegal for people to take in their unrelated friends and neighbors who fall on hard times, this is currently banned under the code.

I have lived in housing cooperatives in other states and it was one of the greatest financial and community decisions I have ever made! I hope I get the opportunity to do that in Denver!

Please pass these changes without delay or separation to create affordable housing, remove discrimination from our zoning code, and serve those in need in our community.

Please Pass Group Living Changes Without Delay

Dear City Council: Regarding Group Living.

As you know, currently, zoning codes say no more than two unrelated adults may share a house. This is very discriminatory. There are many people who would benefit by increasing the number. I think 10 is too many, but 4 or 5 are reasonable, especially if that number includes kids.

For example, I’m an older single woman with a beautiful apartment in my basement, but I can only rent it to one person. When I purchased this home, I thought I would be able to supplement my income by having roommates, but I am hamstrung by the current rule. I could easily accommodate a family, which would help them and me. I have off-street parking and would not impact the neighborhood in any way.

I believe that the zoning code should NOT define a family and that I should be able to have whomever I want living with me. The current rule creates a financial hardship for me and for my potential roommates.

We need affordable housing, and this change will help create some much-needed housing relief in Denver, especially right now when it is so desperately needed.

I am not opposed to the residential care facilities in neighborhoods, but I also believe that you should UNCOUPLE this proposal from the proposal for residential care in neighborhoods. These are really two different subjects and you will have more success in getting one or the other passed if you uncouple them. As long as you keep them together, you face an uphill battle.

Respectfully submitted,

Sharon Cairns Mann

Please Vote YES on Group Living Code Changes

When I first moved to Denver in 2008, I was a fresh college graduate with out a penny to my name. I had a low-paying internship lined up with the State DNR and the only way I could afford housing at the time was to live way out in the suburbs or to split rent with several roommates. The ability for me to live with 3 other people within a reasonable distance of my employment set me on a path of success and opportunity that I probably would not have otherwise had. Twelve years later I am an extremely productive and engaged in this economy and in our civic institutions. I wouldn't be where I am today with out that first foothold, which was living against occupancy code.

So no, Group Living does "create" affordable housing, but it does create opportunities for individuals to live more affordably by splitting their resources with others. As my story indicated, this is already happening throughout the city- almost entirely by people who have no idea they are doing anything wrong. The passage of these changes won't create a mass influx of group living scenarios because the majority of people who would live this way (young people, the working class) aren't plugged in enough to the minutia of city code. By NOT passing this code, you will be in effect condemning these people, who are already struggling to get by, to fines and evictions in the middle of a housing crisis and global pandemic.

The attention that this code change has received has also shined an unwelcome spotlight on those that have bravely spoken out about their non-compliant living situations. This has placed a target on their back for retaliatory complaints from those who spitefully oppose this code change. It is currently happening, and your inaction will perpetuate this discrimination.
As far as the other pieces of the code change, I live within walking distance of a community corrects facility that exists in residential Sunnyside. The fear mongering about these facilities regarding how they "don't belong in residential neighborhoods" is really saying "they don't belong in MY neighborhood, but I have no problem with them existing in YOUR neighborhood, because my safety is more valuable than yours." If these facilities are allowed in my neighborhood, they should be allowed in yours as well. The equity concerns by those who live in, and represent, districts that don't have any of these facilities appear to be nothing more than crocodile tears to those of us with these facilities.

I understand the equity concerns surrounding Chapter 59, and rather than delve into a rant about how I think our zoning code is far too messy, I will urge you to use your power as Council Members to find a solution that will enact the code changes citywide, similar the Marijuana Laws. I know you will be able to find an easy and equitable solution for this issue.

What this truly boils down to, for me, is that our government should have no place in telling us with whom we can or cannot live, as long as we follow health and safety codes. Why would we give our government the power to define "family" for us? We are not all lucky enough to have blood relatives in this city, or in this life, and many of us must seek alternate familial relationships. It pains me that a compromise was made on the original Group Living Code Change that re-inserted the term "unrelated adult," however I will not allow the perfect be the enemy of the good on this issue.

I will leave you with a light analogy about the potential for "overcrowding." Yes, it is possible for up to 40 people to live under one roof with these code changes, but it is also possible for me to eat 40 hotdogs in one sitting.... however I would certainly never do so. Just because something is possible (and it is already currently possible as long as people are related) doesn't mean it will happen. Our government should have other things to worry about than micromanaging every potential choice we can make. It's like making a law stating that no person shall bathe in orange juice.

Thank you for your time and consideration on this important issue.
...and yes, our RNO was well informed throughout this entire process. those that claim otherwise were not paying attention and were derelict in duty.

**Undo the watering down of Group Living reform and pass it!**

Denver is in the midst of a housing crisis that has put a strain on service providers, renters of all incomes, and vulnerable communities. This crisis has its roots in the use of the zoning code in the 20th Century to discriminate.

Conceding to prejudices and giving up on environmental and equity goals is not "compromise."

The zoning code should regulate safety, not be a tool for privileged groups to force discrimination in neighborhoods.

Please undo the LUTI changes and allow up to ten residents in large homes as well as ensuring residential care facilities can operate in Denver.

In many of our communities, we are hearing explicit calls for housing discrimination against immigrants and individuals earning lower incomes. Please do not allow this to become an opportunity for those who have historically held the decision making power (White, property owning, older folks) to continue to discriminate against already marginalized peoples.
Mayra Gonzales
Please Pass Group Living Changes Without Delay

The city has no business telling us whether we're allowed to have multiple roommates in a city with multiple college campuses, skyrocketing rents, and a global pandemic impacting the economy and housing affordability. Let people live with whomever they want, and let residential care facilities operate without all the red tape.
Undo the watering down of Group Living reform and pass it!

Regarding the Group Living Code Amendments bill before City Council, I would like to see revisions to make it more equitable. The current version keeps high barriers for co-ops and uses zoning as a tool of discrimination. I would like to see the best version of Group Living Reforms passed. The number of unrelated adults who can share a home should be increases. Halfway homes should not be barred from areas currently zoned for single-family, duplex and row house homes.

Undo the watering down of Group Living reform and pass it!

Hello,

I am a Denver resident who, like many others in this city, has recently moved here. Denver has experienced a massive surge of people moving into the city for the economic opportunities and quality of life it offers, but with that has come a rising cost of living. More people moving into the city means there will be more demand for the limited housing stock, and Denver's extremely restrictive occupancy laws only makes the problem worse.

Denver is in the midst of a housing crisis that has put a strain on service providers, renters of all incomes, and vulnerable communities. This crisis has its roots in the use of the zoning code in the 20th Century to discriminate.

Conceding to prejudices and giving up on environmental and equity goals is not "compromise."

The zoning code should regulate safety, not be a tool for privileged groups to force discrimination in neighborhoods.

In Favor of Fewer Group Living Restrictions

If the stated concerns about neighborhood character are to be believed then increasing the number of people allowed in a house is a non-issue and shouldn’t be restricted. If the new concerns are really about overcrowding then we should end exclusionary zoning and allow apartments throughout Denver. Having it both ways is a perpetuation of injustice, classism, and white supremacy.

I am writing to express my support for moving full-speed ahead on the Group Living Amendment to the Denver Zoning Code, with support for occupancy that scales with the size of the dwelling.

I recognize that there are health and safety concerns with over-crowding, but detaching the occupancy limit from the size of the dwelling actively ignores health and safety concerns.

While you may have received notes of opposition concerned about potential nuisances that will come with the changes, there are mechanisms to manage nuisances that might disturb neighbors.

People should never be considered a nuisance just because they exist.
Undo the weakening of Group Living reform and pass it!

Denver is in the midst of a housing crisis that has strained everyone.

We have the ability to help many people immediately by undoing the recent LUTI changes to Group Living and allowing more residents in large homes as well as ensuring residential care facilities can operate in Denver.

The zoning code and other ordinances already regulate health and safety in neighborhoods, like excessive noise, trash disposal, parking times, potential nuisances, and that is enough. The code should not discriminate against people who live together. Zoning must no longer be used as a tool for exclusion and discrimination. I urge Council to undo the recent LUTI changes and pass the Group Living Code Amendment.
