* Allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* Encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

Carol OHare

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 174-page amendment to Denver's Zoning Code.

The changes will:

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 174-page amendment to Denver's Zoning Code.

The changes will:

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

gladys Connolly

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

Jennifer Lusk

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 174-page amendment to Denver's Zoning Code.

The changes will:

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

Kenneth Roberts

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 174-page amendment to Denver's Zoning Code.

The changes will:

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

John Perkins

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

judy rodine

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 174-page amendment to Denver's Zoning Code.

The changes will:

* Increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* Allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

* Allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* Encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

Fredric Kutner

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 174-page amendment to Denver's Zoning Code.

The changes will:

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

Marianne Rabalais Sulser

Denver 80210

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

Maxwell Holtz

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 174-page amendment to Denver's Zoning Code.

The changes will:

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 174-page amendment to Denver's Zoning Code.

The changes will:

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

Margaret Madden

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

Cathleen Nannemann

• allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

• allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

• allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

• encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Tammy Smith

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Marvin Scheinblatt

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Kathryn Cowling

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

John Crum

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Caitlin King

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Eric Griswold

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Kai Robles

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Edward Douglass

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Michael Dixon

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Jesse Smith

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Marsha Trelstad

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Rod Allen

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Kim Davis

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Julie Cady

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Jeremiah Taylor

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Nicolas Esquirol

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Tina Davis

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Patricia Price

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Michael Swartz

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.
