NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 174-page amendment to Denver's Zoning Code.

The changes will:

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

Nick Bassett

The proposed Group Living Zoning Code Amendment is a massive, 174-page amendment to Denver's Zoning Code.

The changes will:

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

Carol Jansch

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 174-page amendment to Denver's Zoning Code.

The changes will:

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

8/18/2020
NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 174-page amendment to Denver's Zoning Code.

The changes will:

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

Vivian Bickle

The changes will:

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

Levi Schryvers

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 174-page amendment to Denver's Zoning Code.

The changes will:

* increase density in all single-family neighborhoods at a minimum of 150% (from 2 to 5-10 unrelated adults plus any related to each) in a time of COVID-19 crowding concerns

* allow new 1-10 person community corrections and homeless shelters in all neighborhood, with no limitations

* allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

* encourage commercialization of single-family neighborhoods as business/operators/investors buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We do have serious concerns about failed program models, lack of functional regulation, and using single-family neighborhoods as an experiment.

Sincerely,

Adrian Ramirez

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Anne Close

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Nan Eklund

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Bob Davidson

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Diane Balkin

Denver 80206

8/19/2020
The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver’s Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Megan Crawford

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Mia Vera

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver’s Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Jade Gonzalez

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Ann Rea

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Danielle Deflorian

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Brian Poisson

NO to Denver’s Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver’s Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Janice Vento

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

julian miller

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

• allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

• allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

• allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

• encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Carol Wilson

• allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

• allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

• allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

• encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

SUSIE ZEYLMAKER

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Rita Bouzoubaa

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Brenda Vacca

• allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

• allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

• allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

• encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Michelle Daniels

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Melanie Scott

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

• allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

• allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

• allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

• encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Jack Gray

NO to Denver's Group Living Zoning Code Amendment

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)
- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations
- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations
- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Anthony Perez

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval (October 2020).

The changes will:

- allow density in all single-family neighborhoods to increase 150% in a time of COVID-19 crowding concerns (from 2 to 5-10 unrelated adults PLUS any number of persons related to each)

- allow new 1-10 person community corrections and homeless shelters in all neighborhoods, with no limitations

- allow new 11-40 person community corrections and homeless shelters in many neighborhoods (12,000 sf lots), with few limitations

- encourage commercialization of single-family neighborhoods as business/investors/operators buy existing housing stock instead of owner-occupants

We don't object to shelters and halfway houses. We have serious concerns about the Group Living Zoning Code Amendment, its extensive impact, and using single-family neighborhoods as an experiment.

Sincerely,

Paul Morrison

Denver 80123

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 *Ensure all Neighborhoods are Safe.*

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 *Ensure all Neighborhoods are Safe.*

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal #9 *Ensure all Neighborhoods are Safe.*

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

The proposed **Group Living Zoning Code Amendment** is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

The proposed [Group Living Zoning Code Amendment](#) is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 *Ensure all Neighborhoods are Safe.*

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

Denver City Council President Stacie Gilmore said:

"It’s not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan’s values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It’s not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan’s values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver’s residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

The proposed **Group Living Zoning Code Amendment** is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

Justin Folkestad

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods... Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

The proposed **Group Living Zoning Code Amendment** is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

Richard Hayes
Denver 80219

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods…Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods…Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

The proposed **Group Living Zoning Code Amendment** is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 *Ensure all Neighborhoods are Safe.*

This is a big experiment on Denver's residents and neighborhoods.

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

The proposed [Group Living Zoning Code Amendment](#) is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 *Ensure all Neighborhoods are Safe.*

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods…Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver’s Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal #9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

Please VOTE NO on the Group Living Zoning Code Amendment!

9/23/2020
The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 *Ensure all Neighborhoods are Safe.*

* **allow density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* **allow new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* **allow new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods…Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."

The current 1,500 ft. buffer zone between all Denver schools and community corrections facilities has been removed, in direct conflict with the Denver Comprehensive 2040 Plan's values and vision of safe communities: Strong and Authentic Neighborhoods; Goal # 9 Ensure all Neighborhoods are Safe.

This is a big experiment on Denver's residents and neighborhoods.

**Please VOTE NO on the Group Living Zoning Code Amendment!**

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow density in all single-family homes to increase a minimum of 150% (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow new 1-10 person 24/7 homeless shelters in all neighborhoods, with few limitations and no spacing from schools

* allow new 11-20 person community corrections with felons and 24/7 homeless shelters in many neighborhoods, with few limitations and no spacing from schools

* commercialize single-family neighborhoods as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

The proposed Group Living Zoning Code Amendment is a massive, 184-page amendment to Denver's Zoning Code. If passed, it will go into effect 1 week after City Council approval.

The changes will:

* allow **density in all single-family homes to increase a minimum of 150%** (from 2 to 5 unrelated adults) during a time of COVID-19 crowding concerns

* allow **new 1-10 person 24/7 homeless shelters** in all neighborhoods, with few limitations and no spacing from schools

* allow **new 11-20 person community corrections with felons and 24/7 homeless shelters** in many neighborhoods, with few limitations and no spacing from schools

* **commercialize single-family neighborhoods** as service providers and investors buy limited, existing single-family housing stock

The Group Living Zoning Code Amendment promises “equity” but many areas of the city are exempt.

Denver City Council President Stacie Gilmore said:

"It's not going to be inclusive because we are pitting neighborhoods against neighborhoods...Montbello is going to feel the brunt of this and Green Valley Ranch is going to be protected."
