

May 15, 2021

On March 10, 2020, the Governor of the State of Colorado issued an Executive Order declaring a state of disaster emergency due to the risk of spread of the novel coronavirus, now designated COVID-19.

On March 12, 2020, the Mayor of the City and County of Denver declared a state of local disaster emergency pursuant to C.R.S. § 24-33.5-701, et seq., due to the risk of spread of COVID-19.

Since that time, the Executive Director of the Denver Department of Public Health & Environment (“DDPHE”), pursuant to section 24-16 of the Denver Revised Municipal Code, has issued numerous public health orders to mitigate the spread of COVID-19 within the City and County of Denver. These public health orders have restricted access to certain facilities; restricted mass gatherings of people; closed restaurants and bars to in-person services; and implemented stay at home requirements and critical business operations. In conjunction with steps taken by the Governor and the Colorado Department of Public Health and Environment (“CDPHE”), these measures all act in concert to minimize the spread of COVID-19 by reducing the exposure of individuals to the virus.

The United States Centers for Disease Control and Prevention (“CDC”), CDPHE and DDPHE have recommended that members of the public, when they need to interact with others outside the home, and especially in settings where many people are present, should cover the mouth and nose to prevent inadvertently spreading COVID-19. One key transmission method for the COVID-19 virus is through respiratory droplets and aerosolized particles that people expel when they breathe, talk, cough, or sneeze. Moreover, people can be infected with the COVID-19 virus and be asymptomatic but still be contagious. People can also be infected and contagious 48 hours before developing symptoms when they are pre-symptomatic. Many people with COVID-19 have mild symptoms and do not recognize they are infected and contagious, and they can unintentionally infect others.

On May 14, 2021, the Governor issued Executive Order D2021-103, which amends, restates and extends the Governor’s previous face covering orders. The Executive Director of DDPHE, pursuant to 24-16 of the Denver Revised Municipal Code, hereby adopts the State of Colorado’s Executive Order D2021-103, dated May 14, 2021. This order replaces and supersedes the DDPHE face covering order, dated May 6, 2021.

“Face Covering” as used in this Order, means a covering made of cloth, fabric, or other soft or permeable material, without holes, that covers the nose and mouth and surrounding areas of the lower face. A Face Covering may be factory-made or may be handmade and improvised from ordinary household materials. The Face Covering should fit snugly but comfortably against the side of the face, include multiple layers of fabric, allow for breathing without restriction, and be able to be laundered and machine-dried without damage or change to shape, if not single use. Face Coverings need to cover the nose and mouth at all times and should remain in place until taken off safely. If a worker’s Face Covering moves during work, it needs to be replaced with one that does not need to be frequently adjusted to reduce touching of the face. A Face Covering should be replaced when it becomes dirty or wet.

In addition to the requirements in Executive Order D2021-103, the Executive Director of DDPHE also hereby requires the following:

1. Except as specifically exempted below, all individuals three (3) years of age or older (“Individuals”) must wear a Face Covering over their nose and mouth in settings where face coverings are required pursuant to Executive Order D2021-103.
2. Nothing in this Public Health Order changes or abrogates the CDC’s Order on January 29, 2021 and the Transportation Security Administration’s (“TSA”) Directives to airports, aircraft operators, and covered owners/operators, dated January 31, 2021, and the Emergency Amendment directed to covered foreign air carriers, dated January 31, 2021, requiring the wearing of face coverings by travelers and others to prevent the spread of COVID-19. Specifically, Individuals are required to wear a Face Covering while at airports, boarding, disembarking, and traveling on any aircraft, train, or road vehicle (including rideshares), into or within the United States. Additionally, Individuals must also wear a Face Covering at any transportation hub that provides transportation within the United States. All Individuals in Denver must abide by the CDC’s Order (available here: <https://www.cdc.gov/quarantine/masks/mask-travel-guidance.html>). (TSA’s Directives and Emergency Amendment are available here: <https://www.tsa.gov/sd-and-ea>).
3. Childcare facilities should provide Face Coverings for children over the age of three; however, Face Coverings should be removed during naps and nap mats should be placed at least six (6) feet apart. Parents and caregivers must supervise the use of Face Coverings by children to avoid misuse.

Pursuant to section 24-24 of the Denver Revised Municipal Code, it is unlawful for any person to fail to comply with this Order. Any person who fails to comply with this Order may also be subject to a civil penalty of up to nine hundred ninety-nine dollars (\$999.00) per violation. Enforcement actions are intended to be cumulative in nature and Denver may pursue one or more civil, criminal, and administrative actions, fees, fines, sentences, penalties, judgments, and remedies and may do so simultaneously or in succession.
