Memorandum

TO: All Street Occupancy Permit Applicants

FROM: Michael Holm, P.E. *MCH*
Engineering Manager

DATE: September 24, 2021

SUBJECT: 2021 Permit Freeze for the Dept of Transportation & Infrastructure (DOTI)
November 25, 2021 through January 2, 2022

In an effort to help promote access to retail and dining establishments during the holiday season and provide the best experience possible for patrons, DOTI will refrain from issuing new permits for utility or development construction to close the public Right-of-Way in critical retail locations from November 25, 2021 (Thursday) through January 2, 2022 (Sunday).

The Permit Freeze applies to the following areas (see attached maps):

- Central Business District (downtown)
- Cherry Creek North Business District
- Stapleton/Forest City retail areas, including The Shops at Northfield
- North Tennyson Street Business District, and
- Lower Highlands Business Area (16th Street & Central Street)

What will happen: New permit applications for parking meter bagging, or street, alley, sidewalk and parking lane closures from November 25, 2021 through January 2, 2022 in the areas above will not be issued. Also, permit applications to close streets that provide access to these retail areas will not be issued. These streets are indicated on the attached maps.

Permits issued prior to the start of the Permit Freeze will continue to be valid through the freeze. However, new permit applications to close additional areas for these projects will be asked to resubmit their applications with dates that begin after January 2.

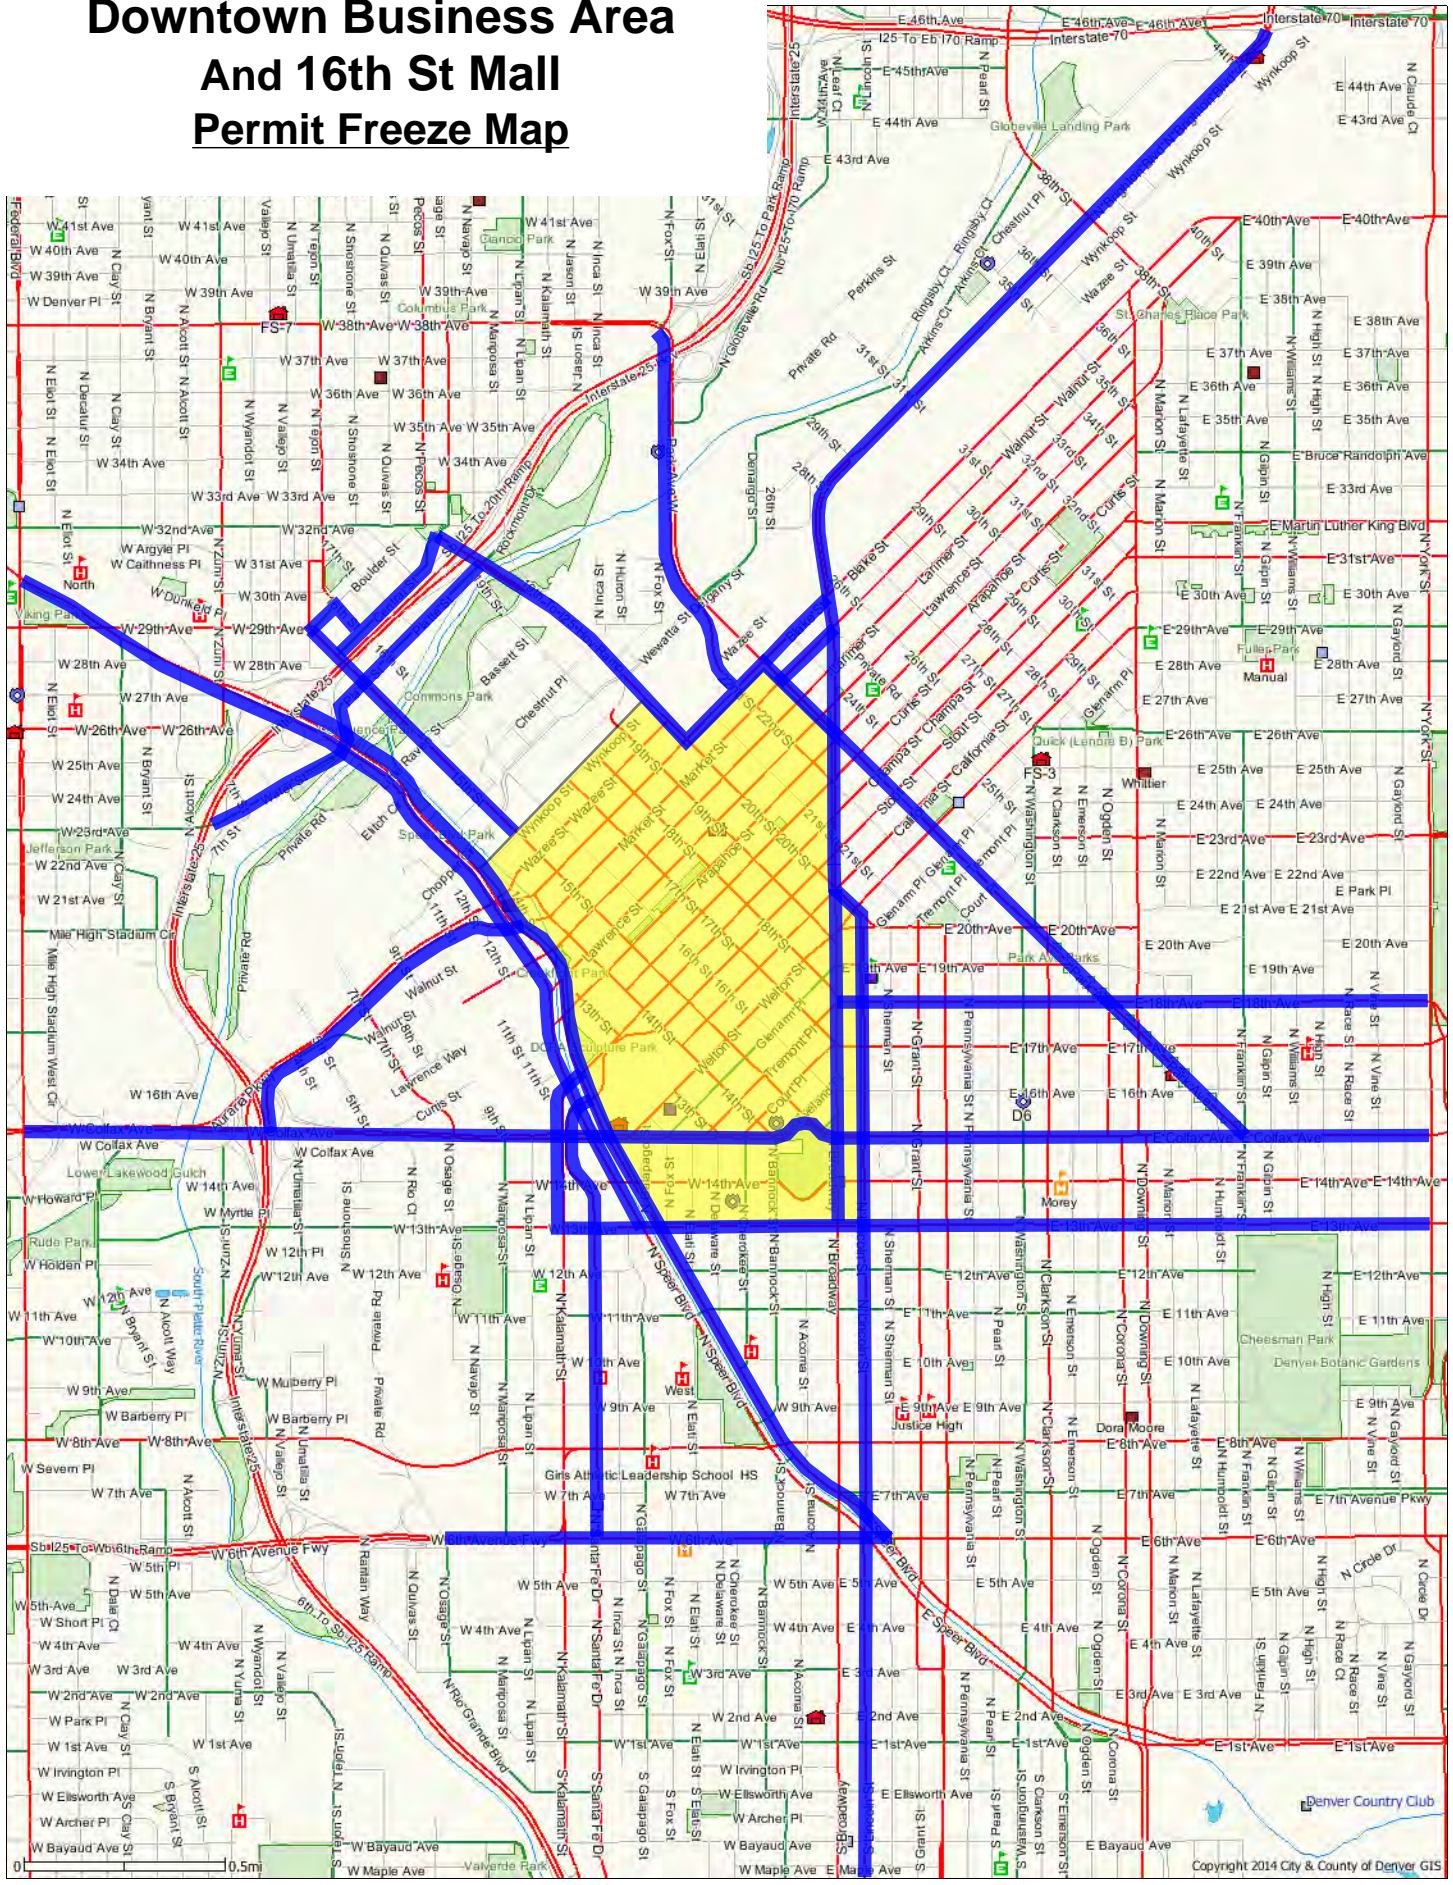

Exceptions to the Permit Freeze will be considered on a case-by-case basis by the City Traffic Engineer (or designee) and could be issued depending upon the work's potential impact to critical retail areas. Permit applications for emergency utility repairs and holiday events will continue to be a high priority and be reviewed and issued as needed.

Thank you for your cooperation.
