# DENVER CENTRAL LIBRARY RENOVATION

## PROJECT BACKGROUND

The Denver Central Library is the epicenter of all Denver Public Library operations. As the premier public library and research facility in Colorado, it is the branch library for the changing and growing communities of Capitol Hill, Golden Triangle and Downtown Denver and is a tourist attraction and cultural center. It is the most publicly accessible and visited civic building in Denver, hosting approximately one million visitors each year. It must remain functional, welcoming and preserved for future generations.

The Denver Central Library renovation project includes significant upgrades to address safety and security issues, correct deferred maintenance, and reconfigure the building for modern library programs, services and resources. Renovations will occur throughout the 540,000-square-foot building to ensure the building remains a safe and accessible library for all.

## PROJECT INFORMATION

Location: 10 W. 14th Avenue Parkway, Denver, CO 80204

District: 10

Neighborhood: Civic Center

Elevate Denver Funded Amount: \$38 million

Designer: Studiotrope Design Collaborative

Contractor: G.H. Phipps

## PROJECT BENEFITS

Updated and improved programs, services and resources

Improved maintenance and reconfigured space
