PROJECT
SUMMARY
SHEET

CIVIC CENTER | GREEK THEATER IMPROVEMENTS

PROJECT BACKGROUND

As a premier civic and cultural center in the Rocky Mountain region, Civic Center Park has defined Denver’s urban landscape. Visited by millions each year, it has been the cornerstone of large events and gatherings for years. Construction began on the Greek Theater in 1917 to create an open stage in front of a sunken orchestra and theater floor with seating for up to 1,200 audience members. The theater is framed by a 210-foot semicircular Colonnade of Civic Benefactors, which has murals by local artist Allen True on its interior walls. Upon completion in 1919, the Greek Theater began to host a variety of shows including vaudeville performances and musical concerts.

This project will design, rehabilitate and construct a premier outdoor performance venue at the Greek Theater. It will enhance visitor experience, facilitate greater and more diverse community celebrations and cultural events, and will ultimately lead to greater economic vitality.

PROJECT INFORMATION

- Location: 150 W. 14th Ave.

- District: 10

- Neighborhood: Civic Center

- Elevate Denver Funded Amount: \$4 million

- Designer: Wenk LA

- Contractor: To be determined

PROJECT BENEFITS

- Enhanced outdoor performance venue

- Enhanced use and activation of space

- Improved entertainment options for residents and visitors

KEY MILESTONES	BEGIN DESIGN 2020	BEGIN CONSTRUCTION TO BE DETERMINED	PROJECT COMPLETION TO BE DETERMINED
