PROJECT  
SUMMARY  
SHEET

# WEST COLFAX AVENUE TRANSIT ENHANCEMENTS

## PROJECT BACKGROUND

West Colfax Avenue has 6,000 weekday Regional Transportation District (RTD) transit riders, two elementary schools and redevelopments adding residential and business density. The Vision Zero Action plan identifies it as part of the high-injury network —corridors that have the highest number of fatal and injury crashes.

This project will improve pedestrian crossings and transit efficiency/reliability. In coordination with RTD, Denver has identified locations to enhance transit operations with elements that may include bus bulb-outs, transit bypass lanes and traffic signal/bus stop modifications. This project will occur in coordination with Colfax Corridor Improvements, another Elevate Denver project, which also dedicates \$20 million to pedestrian improvements, some of which are within the West Colfax footprint that can include medians, curb extensions and enhanced crosswalks.

## PROJECT INFORMATION

Location: West Colfax, between Sheridan Boulevard and Irving Street

District: 1, 3

Neighborhood: West Colfax

Elevate Denver Funded Amount: \$1.9 million

Designer: To be determined

Contractor: To be determined

## PROJECT BENEFITS

Maximized multimodal safety and connectivity

Improved pedestrian crossings

Increased transit efficiency and reliability

Bus stop modifications

<b>KEY MILESTONES</b>	<b>BEGIN DESIGN</b> Q2 2021
