

DENVER FIRE DEPARTMENT

FIRE INCIDENT REPORTING SYSTEM ANNUAL STATISTICAL REPORT 2016

**PREPARED BY THE DENVER FIRE DEPARTMENT'S
TECHNICAL SERVICES DIVISION**

DENVER FIRE DEPARTMENT MISSION STATEMENT

The Denver Fire Department is dedicated to:

- Providing quality, timely, and professional emergency services to those who live in, work in, and visit the City and County of Denver and the communities we serve.
- Respecting each other through trust, pride, diversity, integrity, and training.
- Working together to achieve the highest levels of preparedness, prevention, and community involvement with a dedication to purpose.

The Technical Service Data Division is pleased to present an overview of the Denver Fire Department's service to the community during the Calendar year 2016. The Annual Activity Report reflects the efforts and accomplishments of the Denver Fire Department in providing quality, timely, and professional emergency services to those who live in, work in, and visit the City and County of Denver and the communities we serve.

Our total number of calls for service reached 114,224. The 2016 annual report documents the incidents that individual companies, apparatus, and specialized companies responded to. Support from our Facility Management, Fire Dispatch, Fleet Maintenance, Line Shop, Fire Prevention, Safety & Training, Administration and Warehouse groups are not recognized numerically but must be acknowledged as having contributed greatly to the success of our fire companies' ability to respond efficiently, professionally, and safely to calls for service.

Today's era of technology has transformed the world into a statistical intensive society driving a continuous demand for quality communications and record management capabilities.

The Annual Report is an analytical tool used for supporting decisions which enhance the Denver Fire Department's mission of serving the citizens of the City and County of Denver and the communities we serve to the best of our ability.

Sincerely,

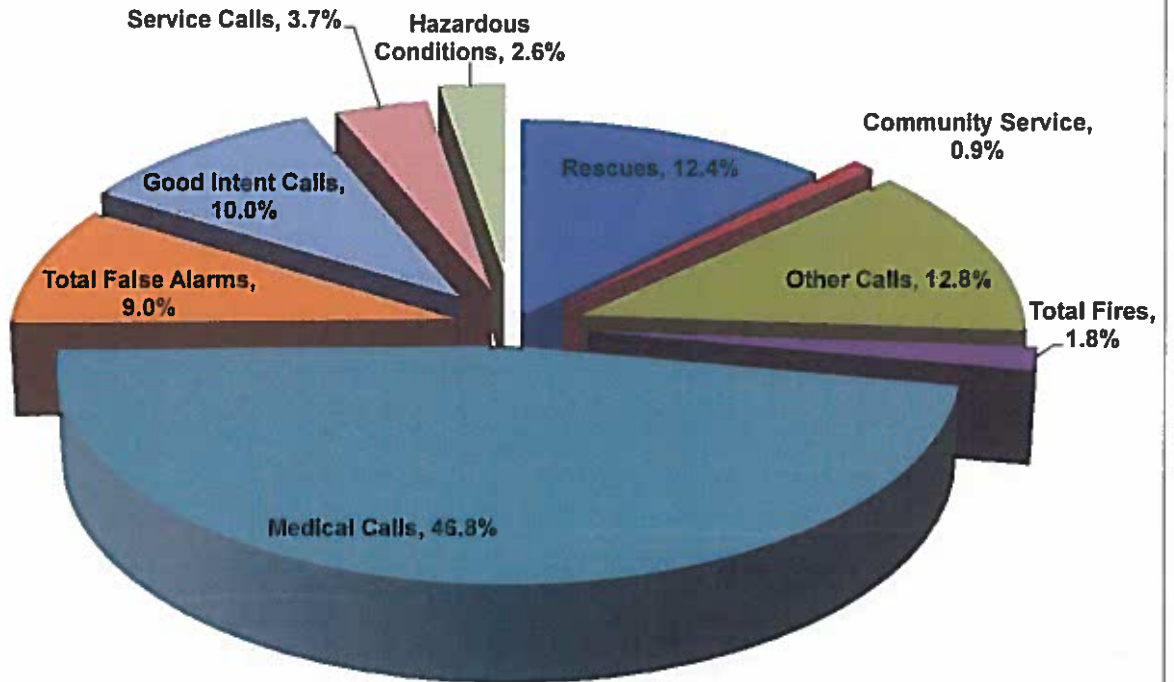

Steven P. Ellis
Division Chief, Technical Services
