

Office of Human Resources
Aviation Electrical Superintendent - CJ2480
THIS IS A PUBLIC DOCUMENT

General Statement of Duties

Directs and supervises the operations of the electrical unit of the Technical Maintenance Department at Denver International Airport.

Distinguishing Characteristics

This class is distinguished from Field Superintendent who performs second level supervisory responsibilities over skilled trade supervisors, crew supervisors, and employees involved in City field operations and Facilities Superintendent who performs second level supervisory work over skilled trade supervisors and employees involved in maintenance, repair, or construction of City facilities.

Essential Duties

Supervises subordinate supervisors and employees involved in the maintenance, repair and construction of highly technical electrical systems such as runway lighting and navigational systems at the airport.

Develops and monitors work teams or units determining priorities, goals and objectives of the work functions, and assigns staff to efficiently and effectively accomplish the division's goals and objectives.

Establishes and maintains preventive maintenance and repair programs for City owned facilities and equipment at the airport.

Implements safety standards and develops procedures to ensure compliance.

Assists in the formulation of the budget and tracks expenditures.

Estimates electrical expenditures on construction, remodeling, maintenance and repair projects.

Disseminates information to supervisors regarding work schedules, time frames, cost estimates, required personnel and the feasibility of electrical maintenance projects.

Directs the development of performance evaluation standards for functions managed within the guidelines set by top management. Formally evaluates the work of directly subordinate supervisors and/or staff.

Develops and implements staff training and development plans to provide cross training of employees, specific job related training, and other approaches to provide opportunities for staff flexibility and development.

By position, may be required to be on-call to address emergent needs.

Performs other related duties as assigned or requested.

Any one position may not include all of the duties listed. However, the allocation of positions will be determined by the amount of time spent in performing the essential duties listed above.

Competencies

Decision Making – Specifies goals and obstacles to achieving those goals, generates alternatives, considers risks, and evaluates and chooses the best alternative in order to make a determination, draw conclusions, or solve a problem.

Delivering Results - Sets high standards for quality, quantity, and timelines. Focuses on customer needs and satisfaction. Consistently achieves project goals.

Influencing - Collaborates with, persuades and influences others.

Reading - Understands and interprets written material including technical material, rules, regulations, instructions, reports, charts, graphs, or tables and applies what is learned from written material to specific situations.

Technical Competence – Uses knowledge that is acquired through formal training or extensive on-the-job experience to perform one’s job; works with, understands, and evaluates technical information related to the job; advises others on technical issues.

Coaching - Provides others with clear direction, motivates, and empowers. Recruits staff of a high caliber and provides staff with development opportunities and coaching.

Written Communication – Composes, reviews, edits, and issues written materials for diverse audiences and communicates purpose in a succinct and organized manner that is appropriate for context, time, and place.
