

Office of Human Resources
Data Analytics Senior – CA3299
THIS IS A PUBLIC DOCUMENT

General Statement of Duties

Performs full performance professional level data analytics work fulfilling data requests and performing advanced level of data analytics and data modeling for the needs of the Department/Agency.

Distinguishing Characteristics

The Data Analytics Senior is distinguished from the Data Analytics Associate, which performs intermediate professional level data analytics work fulfilling data requests and performing moderately complex level of data analytics and data modeling.

The Data Analytics Senior is distinguished from the Data Analytics Lead, which performs lead level work over professional data analysts engaged in providing analytical assessment and evaluations of local government functions and activities by providing analytical and methodological support to the Department/Agency.

The Data Analytics Senior is distinguished from the Data Analytics Supervisor, which supervises data analytics staff and provides a variety of data analytics support services to Department/Agency.

Essential Duties

Identifies analytic ideas in collaboration with team members to meet engagement objectives, reduce risk, and improve efficiency and effectiveness of data analyses during fieldwork.

Provides teams with methodological assistance with the use of data science tools to complete data analytics related to assigned work/projects. .

Supports the team's data needs and provide Data Analytic support for projects as needed.

Conducts, develops, and delivers data analytics solutions while providing ongoing support for assigned work/projects. Performs data retrievals and assessments, sampling on large data sets, and identifies patterns and exceptions independently.

Assists with the design of data analytics queries, tools, and methods. Assists in developing requirements, designs, codes, tests, and analyzes results to provide support using available tools and infrastructure. Assists in managing relationships and communication with key stakeholders.

Assists in facilitating the identification of opportunities to utilize data analyses in the assessment of risk and controls.

Develops innovative, reusable data analytics that can be leveraged by the department/agency. Develops continuous approaches and testing controls to address specific areas of risk identified.

Analyzes the results of data analyses performed and makes recommendations for review by the data analytics supervisor on potential opportunities based on those results.

Assists in training teams in the use of data analysis and data analysis tools to build expertise in the use of data analyses.

By position, performs advance level of data analytics and data modeling for audit and/or project related needs in support of the compliance, operational, financial, and IT audits and management requests for the Auditor's Office Audit Services Division.

By position, provides audit teams with methodological assistance with the use of data science tools to complete data analytics related to audits and evaluations of City and County departments and programs. These engagements include, but are not limited to, assessing the effectiveness, efficiency, public policy assessment, governance, internal control, and compliance objectives as defined by Generally Accepted Government Auditing Standards (GAGAS) promulgated by the U.S. Government Accountability Office (GAO).

By position, supports audit teams' data needs on engagements, controls, and continuous auditing. Supports the data analytics program for Continuous Auditing and provides Data Analytic support for projects as needed.

By position, conducts, develops, and delivers data analytics solutions for a continuous auditing framework while providing ongoing support for Internal Audit projects. Performs data retrievals and assessments, sampling on large data sets, and identifies patterns and exceptions independently.

Performs other related duties as assigned or requested.

Any one position may not include all of the duties listed. However, the allocation of positions will be determined by the amount of time spent in performing the essential duties listed above.

Competencies

Attention to Detail – Is thorough when performing work and conscientious about attending to detail.
