*As with all design and construction projects schedule indicated above is an estimate only. Many factors can cause delays in the delivery of the project, and schedules are subject to change.

Brief project description

Located at the heart of the city and surrounded by many of our key civic and cultural institutions, Civic Center has served as Denver’s most significant gathering spot for cultural events, festivals, and First Amendment rallies for over 100 years. It is Denver’s first National Historic Landmark and honoring its history is critical as we envision its future. The project partners and public will work together to create a design for four key areas within Civic Center that will accommodate its current uses and encourage daily active use. Civic Center Next 100 Concept Design, includes improvements to four key areas within the park including, the Greek Theater, Central Promenade, Central Gathering Space, and Bannock Street between Colfax and 14th Avenue.
