*As with all design and construction projects schedule indicated above is an estimate only. Many factors can cause delays in the delivery of the project, and schedules are subject to change.

Brief project description

The project includes construction of post-tensioned concrete for (1) tennis court and (1) basketball court at Godsman Park. The courts will be built over the existing tennis courts with an ADA accessible walkway to Arkansas Avenue. Additional amenities include picnic table, benches, hopscotch, and bike racks. A new sidewalk connection along Zuni Street between Arkansas and Florida Avenue will also be included in this project. The project is funded from the DPR Legacy Fund/CIP and DOTI Sidewalk Gap funds.

Technical layout of the new tennis court and basketball court
