*As with all design and construction projects schedule indicated above is an estimate only. Many factors can cause delays in the delivery of the project, and schedules are subject to change.

**Brief project description**

This parcel of land located across the street from Kepner School will be transformed into a park aimed at older youth users. Park amenities include a skate area, basketball area, green infrastructure, custom shade structures with integrated benches, landscaping, and a strong emphasis on public art and engaging youth with the art community. The project will be constructed as part of a One-Build through DOTI and include safety improvements to Kentucky.
