The Washington Park North Boathouse Area project will provide park improvements in the area that formerly included the north playground. The restoration of the area of the removed playground will consider recommendations from the 2012 master plan as well as additional community input. The project is fully funded by Denver Parks Capital Improvement funds.

*As with all design and construction projects schedule indicated above is an estimate only. Many factors can cause delays in the delivery of the project, and schedules are subject to change.
