*As with all design and construction projects schedule indicated above is an estimate only. Many factors can cause delays in the delivery of the project, and schedules are subject to change.

Brief project description

Denver Parks and Recreation (DPR) is planning repairs to existing skatepark features. Repairs are expected to be implemented in 2023. DPR intends to launch a planning project looking at longer-term improvements to the skatepark in the future and will use public engagement to inform all improvements.
