Whether it’s going to court, paying fees and restitution, meeting with your PO, fulfilling community service obligations, or satisfying mandatory treatment requirements, we can team you up with a partner who will help you meet the demands you face.

**ARE YOU LOOKING FOR FAMILY SUPPORT?**
*Are you struggling to keep things together at home? Do you feel bogged-down with financial obligations? Do you worry that the stress and frustration you are feeling is negatively impacting your family? We understand the importance of a healthy home life and want to help you achieve it.*

**DO YOU WANT TO ENJOY INDIVIDUAL SUCCESS?**
*Day-to-day you’re told what you need to do and when to do it but what do YOU want? Do you have dreams for your future that you think are out of your reach? We understand how frustrating it can be to feel stuck in life and we want to help you see the possibilities that exist for your future.*

**PROJECT ACHIEVE** can work with you to further explore your interests, develop short and long-term personal goals, and connect you with partners who will help you take charge of your legacy. Whether you want to get involved in athletics, the arts, music, or develop your job skills, we have a large network of people ready to help you achieve your dreams.

**IN NEED OF SOMEONE WHO UNDERSTANDS?**
*Do you feel pressured to stay loyal to your gang ties while at the same time you want a different life for yourself? Do you feel like no one understands where you are coming from or where you are trying to go? We know it can be difficult to make positive changes when you’re being pulled in multiple directions and we can support your transition to a different life.*

**PROJECT ACHIEVE** connects you with case managers who understand the challenges that come with re-entering the community and making healthy life choices. Whether it’s removing a tattoo, finding a job, getting a driver’s license, or just providing a safe place for you to speak your mind, we want to help you establish and maintain a healthy lifestyle.
