

of the pipe.

**SECTION G2437 (609)**

**FLOOR FURNACES**

**Sections G2437.1 (609.1) General through G2437.6 (609.6) Upper-floor installations are replaced in their entirety as follows:**

**G2437.1 (609.1) General.** Floor furnaces are prohibited.

**Supporting Information (Required):**

All of these IRC sections are already amended, as shown, in the IFGC 2019 Denver amendments. This proposal brings those amendments over to the IRC for consistency. The reasoning for these current amendments is unknown by the proponent of this proposal, but they already exist. This proposal simply makes the amendments apply also to IRC construction.

**Other Regulations Proposed to be Affected**

**\*For proposals to delete content from the 2019 Denver Green Code in conjunction with adding it to other mandatory Denver codes and/or regulations, only.**

Please identify which other mandatory codes or regulations are suggested to be updated (if any) to accept relocated content.

**Referenced Standards:**

List any new referenced standards that are proposed to be referenced in the code.

**Impact:**

How will this proposal impact cost and restrictiveness of code? ("X" answer for each item below)

It is likely that Denver staff is already applying the IFGC amendments universally to all construction, and if so, this proposal would have no impact on cost of construction.

Cost of construction:    \_\_\_ Increase    \_\_\_ Decrease    \_x\_ No Impact

Cost of design:         \_\_\_ Increase    \_\_\_ Decrease    \_x\_ No Impact

Restrictiveness:       \_\_\_ Increase    \_\_\_ Decrease    \_x\_ No Impact

**Departmental Impact (City use only):**

This amendment proposal increases/decreases/is neutral to the cost of plans review.

This amendment increases/decreases/is neutral to the cost of inspections.
