

Supporting Information (Required):

All proposals must include a written explanation and justification as to how they address physical, environmental, and/or customary characteristics that are specific to the City and County of Denver. The following questions must be answered for a proposal to be considered.

- Purpose: What does your proposal achieve?

The purpose of this proposal is to streamline the Denver amendments.

- Reason: Why is your proposal necessary?

The final statement in the current amendments which adds a fifth exception to R305.1 is not necessary, as it is already stated under exception 3. The current modification to the exception of R305.1.1 includes "stair headroom". However, this reduction in headroom is better addressed in Section R311.7.2 as a new exception.

- Substantiation: Why is your proposal valid? (i.e. technical justification)

This proposal does not change the intent or application of the provisions. It places them in more appropriate locations of the code and reduces the overall amendment text.
