General Notes:
1. Refer to site survey for all existing grading points for site.
2. Dimensions take precedence over drawings. Do not scale. Dimensions are given to face of studs unless otherwise indicated on the plans.
3. These drawings have been supplied by a residential designer and must be accompanied by stamped structural engineering.
4. Project base plane = 5365.5' (front), 5365.4' (rear).
5. Elevation 100'-0" = FFE 5368'.

Zone Lot Coverage Calculations

- Existing House
- House & Expanded Front Porch
- Second Floor Balcony
- Detached Garage

Existing Total Coverage SF: 1,080 SF
Proposed Coverage SF: 1,609 SF

Total Lot SF: 6,500 SF E-SU-DX

Legal Description
Lot 14 and 15, Block 12, Richtofen's Montclair, City and County of Denver, State of Colorado

Zone Lot Line Information & Calculations

- Street Setback: 5'-0" side (east), 40'-0" (north)

NOT FOR CONSTRUCTION
Expertly crafted wood windows and patio doors with nearly endless possibilities.

- **Designed with distinguished details**
  Crafted with classic aesthetics to make a statement and add architectural interest to your project, inside and out.

- **Enhanced style options and custom capabilities**
  Maximum design flexibility with dramatic sizes, custom colors, finishes, profiles, product types and more.

- **Authentic look of true divided light**
  Pella’s Integral Light Technology® grilles use the industry’s only foam spacer to create the most authentic look of true divided light, by casting a more realistic shadow.

- **Interior finish options**
  From light to dark, Architect Series – Traditional wood windows and patio doors are available in an array of classic and on-trend colors. Pine interiors are available in a variety of paint and stain colors.

- **Beautiful hardware**
  Choose from Pella’s collection of rich patinas and other timeless finishes.

- **Optional integrated security sensors**
  Built-in security sensors allow homeowners to know when their windows and doors are open or locked, while being virtually invisible when the product is closed.

- **ENERGY STAR® certified**
  Pella products offer energy-efficient options that will meet or exceed ENERGY STAR guidelines in all 50 states. Pella Architect Series – Traditional products with triple-pane glass have been awarded the ENERGY STAR Most Efficient Mark in 2021.¹

- **Long-lasting durability**
  Aluminum-clad exteriors with EnduraClad® finish is applied in an overlapping fashion on windows for exceptional protection. Pella’s exclusive EnduraGuard® wood protection is applied after the pieces have been cut and milled, but prior to final assembly.

- **Best limited lifetime warranty**²
  Pella Architect Series – Traditional products are covered by the best limited lifetime warranty in the industry for wood windows and patio doors.²

- **Testing beyond requirements**
  At Pella, our products are tested beyond requirements to help ensure they have long-lasting performance and reduce call-backs for you.

**Available in these window and patio door styles:**

Special shape windows also available. ¹² See back cover for disclosures.

**Grilles**
- Choose the look of true divided light, roomside removable grilles or make cleaning easier by selecting grilles-between-the-glass.

- Ogee Integral Light Technology 
- Aluminum Grilles - Between-the-Glass
- Roomside Removable Grilles
**Integrated Security Sensors**

Integrated wireless security sensors maintain aesthetics, streamline security installation and ensure no warranty loss is caused by post-installation drilling. Sensors can be monitored via the free Pella® Insynctive® App and are compatible with major security panel systems. For more information, go to connectpella.com.

---

**Prefinished Pine Interior Colors**

Custom interior finishes, unfinished or primed and ready-to-paint are also available.

- White
- Bright White
- Linen White
- Artisan Greige
- Natural Stain
- Wheat Stain
- Golden Oak Stain
- Early American Stain
- Provincial Stain
- Dark Mahogany Stain
- Red Mahogany Stain
- Espresso Stain
- Skyline Gray Stain
- Charcoal Stain
- Black Stain

---

**Aluminum-Clad Exterior Colors**

Our low-maintenance EnduraClad® exterior finish resists fading. Take durability one step further with EnduraClad Plus which also resists chalking and corrosion.

- Black
- White
- Brown
- Fossil
- Iron Ore
- Portobello
- Putty
- Almond
- Classic White
- Brick Red
- Hartford Green

Custom colors are also available.

---

**The Best Limited Lifetime Warranty in the Industry**

We know your reputation matters and you stake your reputation on quality, dependable products. That’s why we have the best limited lifetime warranty in the industry for wood windows and patio doors.

---

Footnotes:

1. Some Pella products may not meet ENERGY STAR® guidelines in Canada. For more information, contact your local Pella sales representative or go to energystar.gc.ca.
2. Based on comparing written limited warranties of leading national wood window and wood patio door brands. See written limited warranty for details, including exceptions and limitations, at pella.com/warranty.
3. Performance ratings vary based on product configuration.
4. Flush multi-slide handle is a Pella exclusive design.
5. Flush multi-slide handle is not available in Champagne.
6. Color-matched to your product’s interior and exterior color.
7. Appearance of exterior grille color may vary depending on the Low-E insulating glass selection.
8. Availability may be limited. Please contact your local Pella rep for details.
9. EnduraClad Plus protective finish is not available with all colors. See your local Pella sales representative for availability.
10. Requires the Insynctive App on a smart device, an Insynctive Bridge and a wireless home router with internet connection.
TruDefinition®
DURATION FLEX®
Shingles with Patented SureNail® Technology

Storm Cloud™
HELP PROTECT WITH THE POWER OF FLEX

TruDefinition® Duration FLEX® Shingles with SureNail® Technology

Your shingles need to help protect your home on a daily basis. Duration FLEX® shingles are more flexible than standard shingles, for enhanced durability and performance in all environmental conditions, including storms and cold weather installation. And they’re the only SBS modified polymer shingle that also comes with the advanced performance of patented SureNail® Technology for added confidence in windy conditions.

Duration FLEX® shingles include:

• Patented SureNail® Technology for exceptional wind resistance
• Limited Lifetime Warranty**/‡‡
• 130-MPH Wind Resistance Limited Warranty**
• StreakGuard™ Protection with a 10-year Algae Resistance Limited Warranty**
• Popular color options, ranging from rich and subtle to lively and vibrant.

Made with a proprietary blend of SBS polymer modified asphalt

The rubberizing effect of our uniquely blended SBS modified asphalt makes the shingles pliable and gives them greater flexibility than standard shingles. The result is a premium architectural asphalt shingle with enhanced durability and toughness, especially under intense storm conditions, to help deliver lasting protection for your home.

Duration FLEX® Shingles

• Feature SureNail® Technology which gives a 42% better nail-pull resistance against the wind versus standard shingles.
• Have built-in flexibility to help resist cracking and tearing, in all-weather installation conditions — over 10% stronger tear strength than traditional shingles.
• Lays flat faster than standard shingles.
• Offer rubber-like flexibility to withstand expansion and contraction stresses and helps minimize loss of granules which help to protect the shingle against UV.
• Help absorb the energy of the impact of hail or storm debris; have the highest impact rating possible; UL 2218 Class 4 and may qualify for a homeowner insurance discount*.
TRUDEFINITION® DURATION FLEX® SHINGLES

Add style to your home with premium color blends in a range of choices from subtle to vibrant.

**Rich, sophisticated classic hues**

- Brownwood™
- Driftwood™
- Estate Gray™
- Onyx Black™
- Teak™

**Vibrant, dimensional color combinations**

- Black Sable™
- Sand Dune™
- Storm Cloud™
- Summer Harvest™
When performance is your priority, choose the shingle that offers you a material difference.

Duration FLEX® shingles are the only SBS modified polymer shingle with the added confidence of patented SureNail® Technology for exceptional wind resistance.

- **UL 2218, Class 4**
  - Highest rating possible for impact resistance.

- **Flexible Shingles**
  - Withstands shingle expansion and contraction; helps resist cracking and tearing.

- **Excellent Adhesive Power**
  - Helps keep the shingle layers laminated.

- **Outstanding Grip**
  - The SureNail® strip enhances the already amazing grip of our proprietary Tru-Bond® sealant for exceptional wind resistance of a 130-MPH wind warranty.

- **Breakthrough Design**
  - Patented SureNail® Technology is the first and only reinforced nailing zone on the face of the shingle.

- **"No Guess" Wide Nailing Zone**
  - This tough, engineered woven-fabric strip is embedded in the shingle to create an easy-to-see strong, durable fastener zone.

- **Triple Layer Protection®††**
  - A unique “triple layer” of reinforcement occurs when the fabric overlays the two shingle layers, providing increased protection against “nail pull” from the wind.

- **Double the Common Bond**
  - SureNail® features up to a 200% wider bond between the shingle layers in the nailing zone over standard shingles.
Summer Harvest™
TOTAL PROTECTION ROOFING SYSTEM®

TOTAL PROTECTION SIMPLIFIED™

Owens Corning® Total Protection Roofing System® integrates engineered Owens Corning® components that work together to address these three primary performance areas, critical to a high-performance roof, while also making it easy to understand the importance of each. With Owens Corning, it’s easy to confidently deliver total protection, beauty and peace of mind.

* Homeowners should double-check with their insurance company to see if they qualify. ** See actual warranty for complete details, limitations and requirements.
† Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.
†† This illustration depicts Triple Layer Protection® and the amount of Triple Layer Protection® may vary on a shingle-to-shingle basis.
‡ Tru-Bond® is a proprietary premium weathering-grade asphalt sealant that is blended by Owens Corning Roofing & Asphalt, LLC.
‡‡ 40-Year Limited Warranty on commercial projects.
^ Excludes non-Owens Corning® roofing products such as flashing, fasteners, pipe boots and wood decking.
SureNail® Technology is not a guarantee of performance in all-weather conditions. SureNail® Technology is available only on Owens Corning® Duration® Series Shingles. For patent information, please visit www.owenscorning.com/patents.
# CSA A123.5 applies to product produced in Summit.

(Brand Rating: 3.3/5)
These are the most beautiful aluminum bi-fold doors for your modern house or office. Folds easily by using highest quality rolling hardware, the double pane glass filled with argon gas that makes bifold doors a perfect choice for upgrading your house and are a practical, cost-effective solution for most openings. The powder coating finish on the aluminum frame enhances its durability against all weather conditions. The locking mechanism of folding doors have been designed with maximum security. It has multi-point lock that covers each panel on the sliding track. It makes it much more secure than a single locking point on the traditional doors. This makes the perfect door for your next home improvement project.

Trex Transcend® decking and Trex® Fascia are wood thermoplastic composite lumber (WTCL) boards with an integrated shell that covers the boards on the top surface and sides. The integrated shell consists of a proprietary surface formulation that produces a natural, wood-like grain pattern finish. An alternative to naturally durable hardwood lumber, Transcend Decking and Fascia are ICC-ES SAVE-certified to be a minimum of 95.4% recycled content by weight.

Northwest Door®

“The Face of Fine Homes for Over 60 Years”

www.nwdusa.com
CONSTRUCTION:
Door frames are constructed using 1-3/8" thick finger-jointed West Coast Hem/Fir with Mortise and Tenon stiles and rails. Solid Rails are an available option and recommended if the door is to be stained. Doors faces are sanded and ready for field finishing by others. (All wood doors should be finished and protected from the weather prior to the door’s installation)

Raised panels are 3/4" thick; choose from Hem/Fir Panels, Clear Cedar Panels, or Redwood Panels. Also available, the "All Cedar Raised Panel Door" manufactured with a solid Western Red Cedar Frame and Clear Western Red Cedar Panels.

Recessed panel are 1/4" panel thick; choose from Luan Mahogany Plywood, Rough Sawn Fir Plywood, and Tempered One Side Hardboard Panels.

Flush door back, insulate door and laminated reinforced raised panels are optional and can be specified at time of purchase.

STANDARD SIZES, PANEL & SECTION ARRANGEMENTS:

EXAMLES OF PANEL ARRANGEMENTS, 5 SECTION RAISED PANEL DOORS SHOWN

WARRANTY:
All wood garage doors manufactured by Northwest Door, Inc are warranted against defects in material and/or workmanship for a period of one year from date of purchase to the original purchaser. Upon inspection, Northwest door will supply, only the defective parts to the original purchaser. Northwest door agrees to repair or replace at no charge any part, parts, or complete unit found to be defective by Northwest Door within this period. Northwest Door will not be responsible for painting, shipping, labor, transportation and/or field charges. Customer Responsibility: To validate this warranty, the doors must not be allowed to get wet prior the application of protective finish to the door. The door must be finished with one (1) prime coat of exterior oil based primer and two (2) coats of finish exterior paint applied to surfaces and edges prior to or immediately after installation.
