Constituent Services Responses

Only one interaction with Matt Walter, we are glad he is helping us.

Connor is my main contact in the D5 office and he's extremely professional and pleasant to work with. I appreciate his sincerity and how he makes me feel validated when I raise concerns to him.

Being on the Winston Downs Community Association board and working with Matt Walter from Amanda's Office who attends our monthly meetings is SO helpful. He is able to update us on projects, answers our residents questions. We love him!

I contacted your office in April regarding an issue I had with Denver Solid Waste. Connor O'Keefe was extremely helpful and responsive and helped solve my issue.

I do not contact the office directly, but am very appreciative of the support provided to LUN and interaction with AS and staff at various events.

Office staff very responsive and helped me with a derelict vehicle parked in front of property - thank you!
