

## BIKE INFRASTRUCTURE IMPLEMENTATION

### PROJECT BACKGROUND

To continue the City’s buildout of a comprehensive bike network, new or enhanced bike infrastructure projects will be delivered through the continuation of the Community Transportation Networks strategy. This will allow for focused community involvement, more coordinated project design and bundling of larger levels of construction. Two Community Transportation Networks of enhanced bike infrastructure will be designed and built in the Globeville Elyria-Swansea community, and other central and southern neighborhoods.

### PROJECT INFORMATION

Location: Various

District: 7, 9 and 10

Neighborhood: Various

RISE Denver Funded Amount: \$10.1 million

Designer: TBD

Contractor: TBD

### ECONOMIC BENEFITS

Approximately 151 jobs (created and continued)

\$9.4 million in wages to workers

\$20.2 million in economic output (sales activity to businesses)

### PROJECT BENEFITS

Improved, connected bike network throughout Denver

Increased access for residents to a mode of travel that engages people in a healthy activity

Improved environmental quality through increase in bicycling travel vs. driving

### KEY MILESTONES

**BEGIN FINAL  
DESIGN**  
TBD

**BEGIN  
CONSTRUCTION**
