

DENVER MUSEUM OF NATURE AND SCIENCE (DMNS) DEFERRED MAINTENANCE

PROJECT BACKGROUND

Deferred maintenance projects are critical to ensure DMNS provides a safe environment for guests, volunteers, staff and collections. As a continuation of previous deferred maintenance projects at the museum, this project will remove asbestos, repair and replace aged HVAC equipment, update life safety systems and expand emergency lighting in the oldest sections of the building.

PROJECT INFORMATION

Location: 2001 Colorado Blvd.

District: 9

Neighborhood: City Park

RISE Denver Funded Amount: \$3 million

Designer: N/A

Contractor: TBD

ECONOMIC BENEFITS

Approximately 45 jobs (created and continued)

\$2.7 million in wages to workers
